2023 SNAPSHOT

Highlights:

- JBI gLocal Solution Room 30,000 participants globally
- JBI Evidence Synthesis achieved first impact factor of 2.7
- Revised critical appraisal tools released
- Research informs WHO guidelines to reduce malaria cases
- World Evidence-Based Healthcare Day

New in 2023:

- JBI EBP Database microsite launched
- The first JBI iGNITE EBHC Methodology Symposium launched
- 8 new JBI Collaboration Entities

EXECUTIVE DIRECTOR'S REPORT 2023

As we reflect on the accomplishments and challenges of the past year, it is with great pleasure that I present to you the JBI 2023 Annual Report.

Amid ongoing global change and uncertainty, our commitment to evidence-based practice and healthcare excellence has remained unwavering. JBI continues to be at the forefront of driving innovation, fostering collaboration and empowering healthcare professionals worldwide to deliver the highest quality care.

Throughout 2023, we took significant strides in advancing our vision and mission across multiple fronts. While we continued to generate healthy revenues via our Research Translation Agreement with Wolters Kluwer Health, our research initiatives expanded this year, with a renewed focus on applying for competitive grant funding to support our scholarly work.

Our award and non-award programs continued to deliver high-quality experiences to those seeking knowledge and skills related to evidence synthesis and implementation. Despite the pandemic being largely behind us, we continued to deliver programs in both online and in-person formats, embracing digital platforms to ensure accessibility and inclusivity in our educational offerings.

Collaboration remains a cornerstone of our work and in 2023, we strengthened partnerships with institutions, organisations and individuals who share our vision of advancing evidence-based healthcare. We were delighted to celebrate another World Evidence-Based Healthcare Day, with record global engagement across multiple platforms. Similarly, we were excited to welcome our global collaborative evidence network to Adelaide in November for our annual general meeting, followed by the JBI iGNITE Methodology Symposium event. Together, through events like these and others, we have fostered a dynamic community committed to driving positive change and improving patient outcomes worldwide.

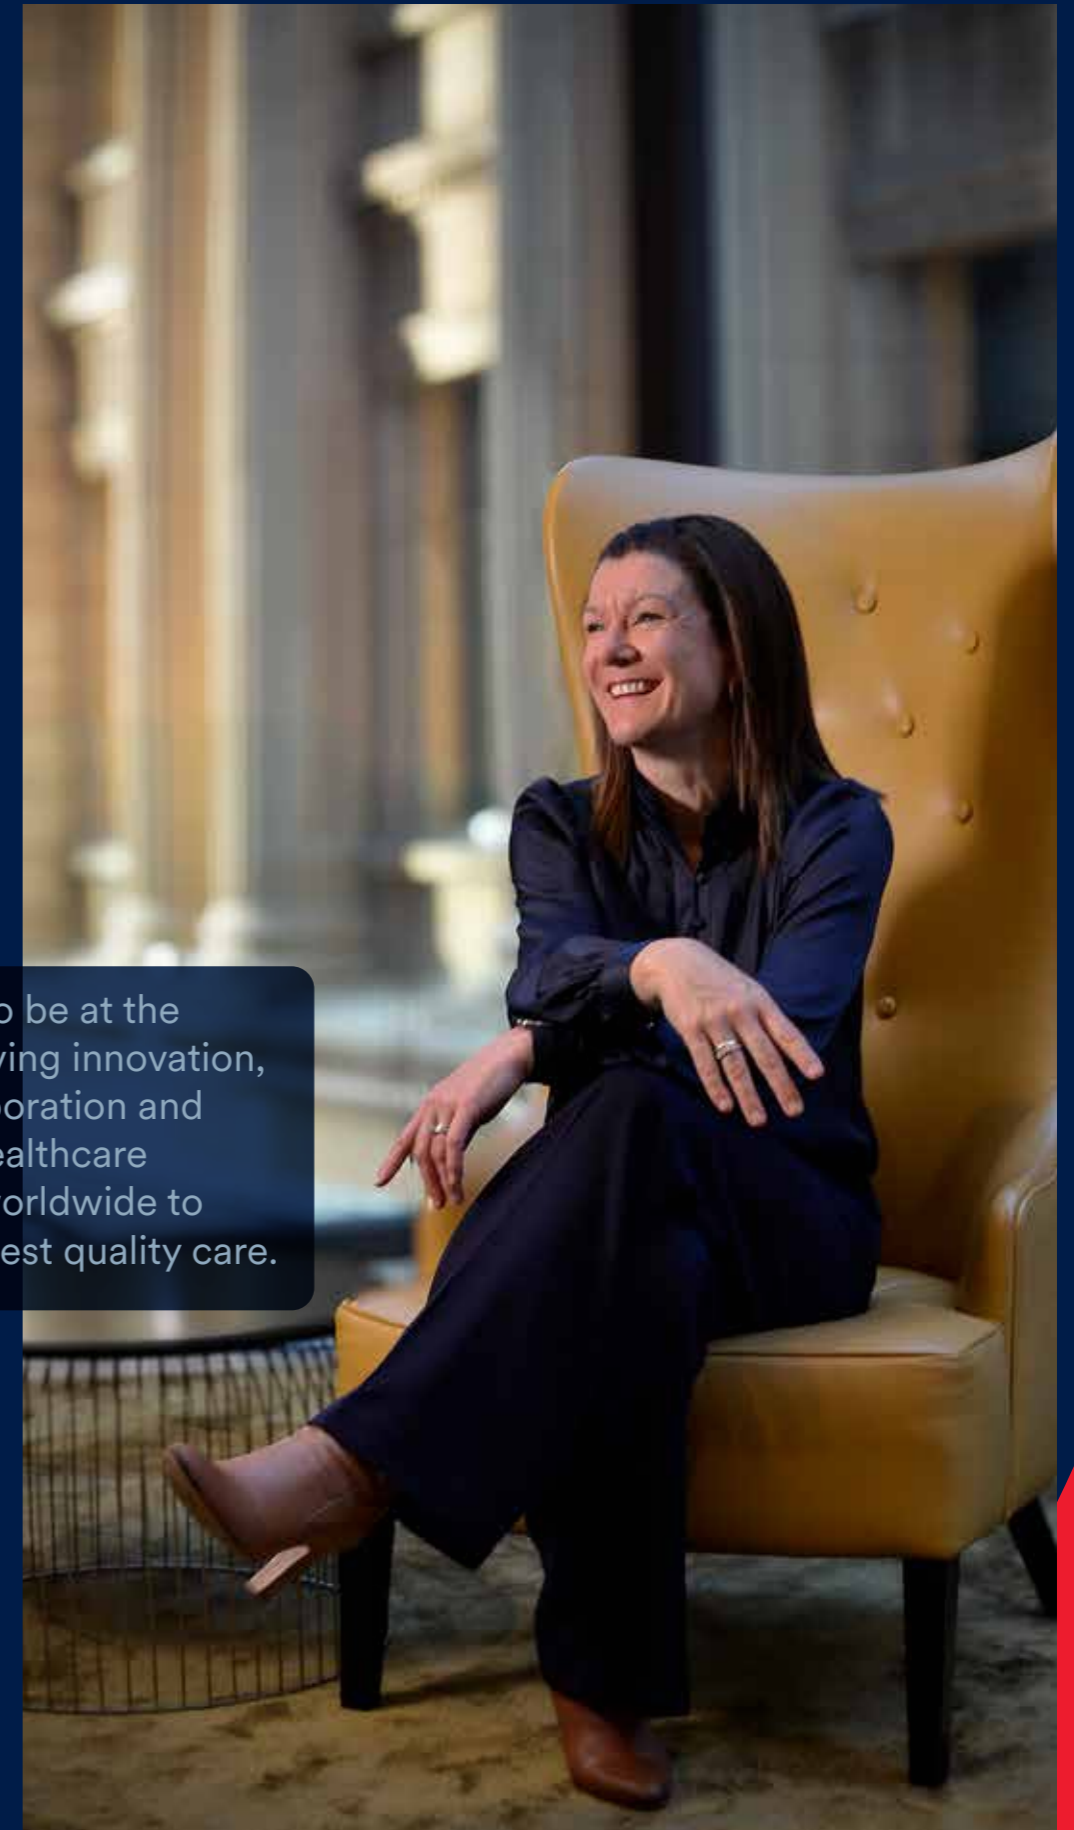

As we celebrate our achievements, we also recognise the challenges that lie ahead. The evolving evidence ecosystem demands agility, innovation and resilience. With your continued support and engagement, we are confident in our ability to navigate these challenges and emerge stronger than ever.

I would like to extend my deep gratitude to our dedicated staff, collaborators, partners and supporters who have contributed to the success of JBI throughout 2023. Your passion and commitment inspire us every day as we work towards our shared vision of better evidence for better outcomes and a brighter future.

I invite you to explore our 2023 Annual Report, where you will find stories of impact, insights into our programs and glimpses of the transformative work being undertaken by JBI across the world.

Prof Zoe Jordan
Executive Director

JBI continues to be at the forefront of driving innovation, fostering collaboration and empowering healthcare professionals worldwide to deliver the highest quality care.

STRATEGIC PLAN 2024 - 2026

Our Vision

Better evidence. Better outcomes. Brighter future.

Our Mission

Promoting and supporting evidence-based healthcare.

Equity, Diversity, and Inclusion Commitment Statement

Equity, Diversity, and Inclusion (EDI) are at the core of JBI's vision, mission, model for evidence-based healthcare and global community spanning more than 40 countries. Central to JBI's approach to evidence-based healthcare is the understanding that success depends on individuals and organisations working together within a functioning evidence ecosystem. We understand that the challenges in promoting and supporting this endeavour are diverse, complex and vary between countries, communities, and cultures, requiring strategies that are specific to a local context.

There have been significant lessons learned by JBI and the JBI Collaboration in our growth over 27 years, including the need to address EDI challenges both within our collaborative evidence network and across our programs, partnerships, methodologies, scholarly work and systems. To achieve this, we strive to position these values at the forefront of everything we do. We are strong advocates for centring diverse voices and believe in the transformative power of co-creating inclusive communities to deliver more equitable solutions to address global health challenges.

Our commitments

- Undertake a scoping exercise with our global collaboration to define equity, diversity, and inclusion for JBI/JBIC to inform future work.
- Improve EDI across our two international journals, evidence-based practice database, and scholarly publishing.
- Work with cognate partners to investigate how EDI can be addressed in our methodologies for synthesis, transfer, and implementation to increase global capacity to consider equity and to promote the use of equity-relevant evidence in health and healthcare decision-making.
- Continue monitoring, evaluating, and reporting on EDI across the JBI Collaboration operational framework, co-developing programs and initiatives.
- Work with cognate partners to develop guiding principles and best practices for building and governing equitable, diverse, and inclusive collaborative evidence networks.
- Promote the use of inclusive and bias-free language across meetings and events and commit to increasing accessibility.

2024-2026 ORGANISATIONAL STRATEGY SNAPSHOT			
STRATEGIC OBJECTIVES			
People	Products	Sustainability	Scholarship
Our organisation is creating a positive learning culture that supports a diversity of stakeholders globally	Our organisation is striving to deliver high quality products and services that meet the needs of end users	Our organisation is focussed on ensuring our ongoing security and sustainability	Our organisation is driving research and scholarship across the evidence ecosystem
KEY RESULTS AREAS			
A strong, resilient, inclusive, supported team	Mature, modern, functional software	Robust agreements with market specific vendors	Aligned research framework across JBI
A connected, productive, sustainable network	Respected scholarly journals with Impact Factors	Revenue diversification to mitigate risk	HDR students contributing to core research aims
A robust external communications strategy	Superior, accessible point of care resources	Increased commercial research revenue for reinvestment	Category 1-2 grants secured for JBI scholarly work
Meaningful relationships with partner organisations	High-quality, sought-after education offerings	Appropriate and transparent financial reporting	Strong contract and consultancy pipeline

United Nations Sustainable Development Goal Commitment Statement

The United Nations 2030 Sustainable Development Goal (SDG) Agenda is a blueprint to achieve a better and more sustainable future for all. The SDG agenda sets targets to address the interconnected crises of poverty, health, climate change, conflict and sustainable economies, with a global commitment to 'leave no one behind'. JBI is committed to providing solutions for a more connected, sustainable world. We aim to focus on the interconnected health-related targets, in line with our vision and mission, to deliver outcomes and impact by:

- Fostering a culture of sustainability that promotes consideration of the SDGs across our programs.
- Continuing to engage in dialogue with our key stakeholders to raise awareness of the SDGs.
- Conducting research to develop innovative methods to enhance prioritisation in relation to SDGs across programs, partnerships, and policies.
- Contributing to the global SDG Synthesis Coalition to generate lessons that can inform action and acceleration of results towards the achievement of the SDGs.

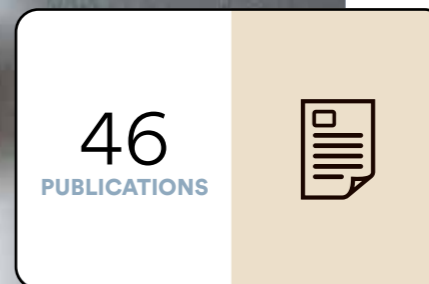

RESEARCH

Our new research strategy was launched in 2023, reaffirming our commitment to both the science and practice of evidence-based healthcare.

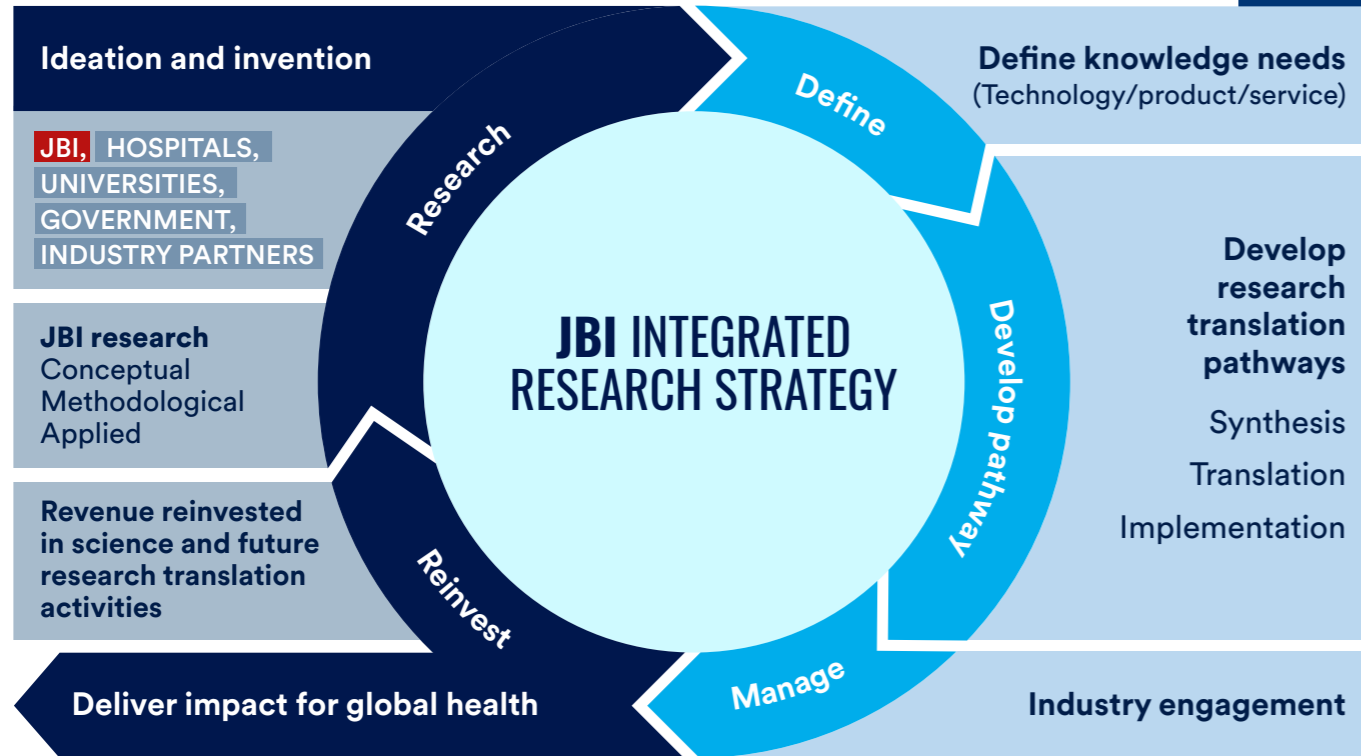

This strategy harnesses our unique pragmatic perspective, deepening our collective understanding of research translation endeavours across the evidence ecosystem. Conceptual and methodological advances in the science of evidence-based healthcare (from synthesis through to implementation) continue at a rapid rate, along with the number of new approaches and tools available. In 2023, we took great strides in our scholarly work as we continued to strengthen the science that underpins our core programs and our potential to achieve impact at scale.

RESEARCH STRATEGY

JBI occupies a hybrid space that spans academia and industry, reflected in the integrated research strategy illustrated below.

With strong industry partnerships now established, our researchers are well positioned to apply for Category 1-2 competitive grants that can be utilised to increase our research translation capacity and achieve our scholarly endeavours. This unique model does not follow a traditional linear approach to research translation but instead employs an innovative methodology that delivers impact for global health. Research revenue from our industry partnership are reinvested to support ongoing research and development activity.

2024-2026 JBI RESEARCH STRATEGY SNAPSHOT				
RESEARCH PILLARS				
	Evidence Networks	Evidence Synthesis	Evidence Transfer	Evidence Implementation
	Our researchers are seeking to understand how diverse contributors from across evidence ecosystems can partner and collaborate more efficiently and effectively.	Our researchers are extending global synthesis methodology across diverse data sources and its application to produce trustworthy evidence for policy and practice.	Our researchers are developing new and innovative pathways to facilitate the transfer of evidence to health service professionals at the point of care.	Our researchers are advancing sophisticated and unique approaches to practice change, building skills and capacity in the clinical application of evidence in health services.
RESEARCH PRIORITIES				
Conceptual	Establishing key characteristics for success across global collaborative evidence networks	Development and testing of a structured taxonomy for evidence synthesis	Building and evaluating the conceptual scaffolding for evidence dissemination and communication	Examining models and frameworks for implementation science
Methodological	Establishing methodologies for equity, diversity, and inclusion across JBI programs, systems and global collaborative evidence networks	Developing and enhancing methodologies for systematic and scoping reviews across different evidence sources and advancing guideline development	Generating new methodologies and methods for the development of evidence summaries and knowledge mobilisation	Further development of implementation methodologies as they relate to organisational readiness and resources for clinical practice change
Applied	Examining strategies for global priority setting (i.e. SDGs) across the evidence ecosystem	Establishing the validity of appraisal tools and utilising emerging technologies to advance evidence synthesis practice (i.e. automation/machine learning)	Application of computable evidence and systems integration for more effective knowledge transfer	Health services research in clinical settings investigating the effectiveness of implementation approaches

EBHC RESEARCH PROGRAM

JBI's EBHC Research Program seeks to respond to key challenges across the evidence ecosystem with a focus on closing the gap between the *science* and *practice* of evidence-based healthcare.

JBI's foundational scientific work is funded through a Research Translation Agreement with Wolters Kluwer Health. This significant Category 3 grant facilitates a global program of conceptual, methodological and applied research across the entire knowledge translation trajectory, encompassing the critical domains of global partnerships/networks, synthesis, transfer and implementation.

2023 Highlights:

CHIEF INVESTIGATORS:

Dr Cindy Stern (CIA), Senior Research Fellow

Dr Lucylynn Lizarondo, Research Fellow

Dr Ashley Whitehorn, Research Fellow

- Evidence synthesis methodology for questions relating to barriers and enablers in healthcare.

The number of evidence synthesis studies identifying factors that facilitate (act as 'enablers') or impede (act as 'barriers') the implementation of best practice in healthcare has significantly increased as researchers and clinicians strive to understand the evidence-practice gap. There is currently no consensus on the evidence synthesis approach for such topics, with the methods for analysing or synthesising results from studies varying across existing evidence reviews. A scoping review is currently underway at JBI to address this significant knowledge gap. With almost 800 included reviews, this research project will investigate the methodological aspects or processes related to the review of primary studies on barriers and/or enablers in healthcare. This includes barriers and enablers at different levels of healthcare, such as consumers of care, health practitioners, health organisations, policymakers and the community.

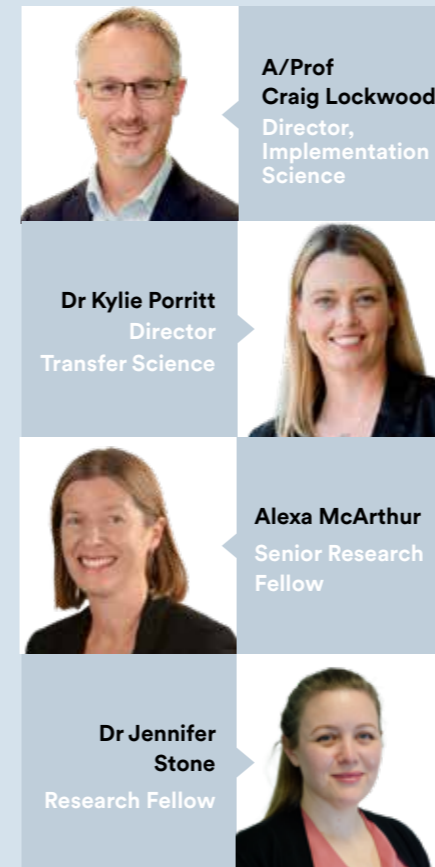

CHIEF INVESTIGATORS:

Prof Zoe Jordan, Executive Director

Bianca Pilla, Director, Global Relations

- JBI Evidence Synthesis and the United Nations Sustainable Development Goals.

In 2015, the United Nations agreed on 17 SDGs as the central framework for sustainable development worldwide. However, in the wake of the global pandemic, the 2030 SDG agenda is in jeopardy due to multiple cascading and intersecting crises. The Global Commission on Evidence has urged the evidence community to consider how it might more meaningfully contribute to the evidence architecture. As we pass the midway point to the SDG 2030 target date, it is timely to reflect on the contribution of those in the evidence synthesis community to achieving these important global objectives. JBI recently completed a pilot study to map the alignment of publications in *JBI Evidence Synthesis* to the United Nations Sustainable Development Goal (SDG) 3 (global health and well-being) and to understand JBI authors' awareness of and engagement with the goals. This will contribute to a larger-scale analysis to assist the JBI Collaboration in working toward achieving the SDGs.

CHIEF INVESTIGATORS:

Dr Ashley Whitehorn, Research Fellow

A/Prof Craig Lockwood, Director, Implementation Science

Dr Kylie Porritt, Director, Transfer Science

- Methodological components, structure and quality assessment tools for Evidence Summaries.

Evidence Summaries offer a practical solution to overcoming some of the barriers in evidence-based healthcare, such as lack of access to evidence at point-of-care; lack of knowledge; and lack of expertise to evaluate the quality and translate the evidence into clinical decision-making. However, lack of transparency in reporting and inconsistencies in the methodology of evidence summary development pose significant challenges for end-users (e.g. clinicians, policymakers). JBI recently completed a scoping review to identify and map the available information related to the definition, structure, core methodological components of evidence summaries and to identify any indicators of quality.

The findings of this review provide valuable insights on how to improve the credibility and transparency of evidence summaries in evidence-based healthcare. This will inform future research to develop recommended reporting guidelines and a robust critical appraisal tool for evidence summaries.

CHIEF INVESTIGATORS:

Dr Lucylynn Lizarondo, Research Fellow

A/Prof Craig Lockwood, Director, Implementation Science

Alexa McArthur, Senior Research Fellow

- Facilitation as a key element of evidence implementation.

Facilitation is a key element of evidence implementation. Although quantitative systematic reviews have been undertaken to examine its components and effectiveness, no attempt has been made to synthesise qualitative evidence examining the experiences of facilitators on how facilitation is operationalised, the challenges associated with it and the factors that can influence its effectiveness. This gap in knowledge was addressed by a recent qualitative systematic review which provided key insights into facilitation within evidence implementation. Drawing on facilitators' experiences, the research project uncovered important elements, influencing factors and challenges inherent in the implementation process.

CHIEF INVESTIGATORS:

Dr Jennifer Stone (CIA), Research Fellow

- Development of a Meta-Epidemiological Dataset for Future Research

A research project is currently underway with support from the University of Adelaide's Faculty of Health and Medical Sciences to examine the impact of risk bias assessment items on research results. This involves the collection and standardisation of data from the Cochrane Database, specifically outcome data for included meta-analyses and risk of bias information. Data is subsequently mapped from the risk of bias assessment to a standardised list of items to allow for future evaluation of their impact on results. This meta-epidemiological dataset provides critical preliminary data for future research.

JBI METHODOLOGICAL PROGRAM

JBI is known as a global leader in diverse research methodologies that guide the conduct of evidence synthesis, transfer and implementation to improve health and health service delivery.

JBI Scientific Committee

The JBI Scientific Committee is responsible for the development and oversight of JBI's methodologies and materials that guide the conduct of evidence synthesis, transfer and implementation.

2023 Highlights

- Six publications on JBI methodology
- Revised JBI critical appraisal tools released
- JBI Methodology Month Digital Media Campaign

The JBI Effectiveness Reviews Methodology Group published the first of the revised JBI critical appraisal tools for quantitative evidence. Articles are presented as a series for 'risk of bias' in JBI systematic reviews in *JBI Evidence Synthesis*. The revised JBI critical appraisal tool for randomised controlled trials was published alongside introductory papers to launch the series in March (Issue 3) 2023. A companion series of articles on key concepts of risk of bias assessment is also included.

The JBI Scoping Review methodology is the most universally accepted and popular. The latest recommendations from the JBI Scoping Review Methodology Group for extracting, analysing and presenting results in scoping reviews were also published in March (Issue 3) 2023.

Multiple chapters for the *JBI Manual for Evidence Synthesis* are complete and major updates are underway for other chapters in the Manual, readying for the launch of the new edition in early 2024!

JBI Methodology Month

In March 2023, JBI implemented the digital media campaign, 'JBI Methodology Month' for the second year. The campaign coincided with the release of a special methodology issue of *JBI Evidence Synthesis*. JBI Methodology Month highlights the latest developments from JBI's unique methodologies and the free-access JBI resources available to students, clinicians, researchers, policymakers and others interested in evidence-based decision-making and evidence-based practice.

The campaign aims to:

- Communicate the strengths, value proposition and uniqueness of JBI methodology
- Strengthen JBI's position as a leader in global EBHC
- Extend JBI's reach online by raising awareness of JBI methodological resources, products and services webpages (in particular, the *JBI Evidence Synthesis Special Issue*).

The four-week digital campaign reached 3.2 million people in 2023 compared with 1.6 million people in 2022.

JBI Manual for Evidence Synthesis

The *JBI Manual for Evidence Synthesis* provides authors with a comprehensive guide to conducting JBI systematic reviews. There have been ongoing requests across the globe to make the information in the Manual more accessible to international audiences.

CONSULTANCY RESEARCH PROGRAM

JBI's comprehensive program of consultancy work provides an ideal opportunity for our researchers to apply the scientific advances achieved under the EBHC Research Program.

This program allows researchers to provide pragmatic and innovative solutions to a broad range of external agencies and stakeholders. The outcome of this initiative is to deliver world-class outcomes to inform the development of evidence-based policies and clinical guidelines, and helping to build evidence-based systems for practice change.

2023 Highlights:

**CIs: Prof Zoe Jordan (CIA), Executive Director
Dr Kylie Porritt, Director, Transfer Science
Lisa Hunt, Business Development Manager**

Use of evidence in the management of obesity in the primary sector (Funder: Research Australia)

Obesity is a significant and escalating health concern in Australia, requiring proactive measures for effective management. With new clinical guidelines anticipated in the coming year, this project will provide insights to support the effective dissemination of evidence-based guidance for the management of obesity across primary healthcare contexts. By addressing gaps in our understanding of the prevailing attitudes towards and preferences for accessing and utilising evidence, this project supports the dissemination of evidence-based guidance for the management of obesity across primary healthcare contexts. This enhances the quality of care provided to individuals grappling with obesity and contributes to broader efforts aimed at tackling this pressing public health challenge.

**CIs: A/Prof Edoardo Aromataris, Director, Synthesis Science
Dr Jennifer Stone, Research Fellow**

Investigating the potential effects of exposure to plastics on human health (Funder: Munderoo Foundation)

The global production and use of plastic materials have increased dramatically since the mid-twentieth century and there is a growing body of evidence on human health impacts related to exposure to plastic-associated chemicals. The Munderoo Foundation commissioned JBI to conduct an overview of meta-analyses investigating the potential effects of exposure to plastic-associated particles/chemicals on human health. This research will inform a broader program of activity which will include recommendations for future research and regulatory policy.

**CIs: Dr Kylie Porritt (CIA), Director, Transfer Science
Dr Matthew Stephenson, Research Fellow
Ashley Whitehorn, Research Fellow
Vincent Pearson, Research Fellow
Bronwyn Overall, Research Fellow**

Identifying quality indicators to inform improvement in the quality of care of older people within the hospital setting (Funder: Registry of Senior Australians, South Australian Health and Medical Research Institute)

JBI was commissioned by the Registry of Senior Australians (ROSA) at the South Australian Health and Medical Research Institute (SAHMRI) to assist with a scoping review on the identification of quality indicators to improve the quality of care for older people in hospitals. This research forms part of a broader program funded by the Australian Government's Medical Research Future Fund to provide critical insights into key and currently unknown residential aged care impacts.

**CIs: Dr Lucyllynn Lizarondo, Research Fellow
A/Prof Craig Lockwood, Director, Implementation Science
Alexa McArthur, Senior Research Fellow**

Improving the quality of medication administration practices in a tertiary Australian hospital (Funder: St Vincent's Hospital)

Medication safety is an important health priority seeking to prevent harm from medication-related events. Unsafe medication administration can lead to errors, which can cause avoidable injury (or harm) to patients. JBI was commissioned to support an evidence implementation initiative conducted in a large tertiary hospital in Australia to improve compliance with best practice recommendations for medication administration. The project involved multimodal strategies, including education, improved access to resources and targeted feedback and discussion sessions to encourage culture and behaviour change. The project resulted in improved compliance with best practice recommendations.

A woman with glasses and a white shirt is pointing at a laptop screen in a modern office setting. A man in a brown shirt is looking at a tablet in the foreground. Another woman is working at a laptop in the background.

EVIDENCE-BASED PRACTICE **RESOURCES**

JBI has developed a collection of world-class evidence-based resources driven by the needs of health professionals and consumers worldwide and underpinned by our innovative research. Through JBI's partnership with international publishing house, Wolters Kluwer Health, these resources facilitate research translation and are in one easy-to-use location.

JBI EBP DATABASE

The JBI Evidence-based Practice (EBP) Database provides rapid access to trustworthy, evidence-based clinical decision support at the point of care - developed by clinicians for clinicians.

The JBI EBP Database supports clinical decision-making with trusted nursing and allied health content developed using JBI's rigorous evidence-based methodology. Our content provides better evidence to help clinicians make the right care decision at the right time for the right patient.

The JBI EBP Database is a resource trusted by clinicians across the globe, used by 800+ health facilities globally, with more than 1 million searches conducted annually.

New website

The JBI EBP Database launched a new website in 2023. This website at jbi.global/jbi-ebp-database provides easy and transparent access to information and resources, including the underpinning methodology and free-to-download examples of an Evidence Summary, Recommended Practice and Best Practice Information Sheet.

Highlights

- New website outlining the JBI EBP Database value proposition and features
- Five digital media campaigns run to promote specialty fields
- Expert Reference Groups membership grew to 80 members in 2023 (up from 66 in 2022)
- The Field Collaborators program welcomed seven new collaborators in 2023

Specialty Field Highlights

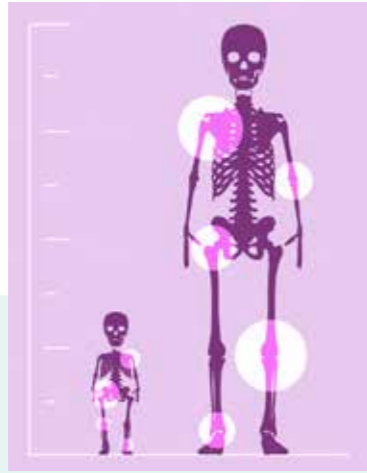

Five digital media campaigns were implemented in 2023 to communicate the strengths, value proposition and uniqueness of the JBI EBP Database and to highlight the following specialty fields:

- Cancer
- Surgical Services
- Cardiovascular
- Musculoskeletal
- Aged Care

The one-month aged care campaign resulted in 740 free-access resource downloads (Evidence Summary, Recommended Practice, Best Practice Information Sheet).

In December, JBI co-hosted a JBI LIVE Webinar with Aged Care Research and Industry Innovation (ARIIA).

JBI EBP Database resources

More than 5,000 resources are available via the JBI EBP Database, which include JBI Evidence Summaries, Recommended Practices and Best Practice Information Sheets.

These resources are analysed and appraised by global expert reviewers to ensure that the most up-to-date information and best practices are provided.

In 2023, four Best Practice Information Sheets which accompanied systematic reviews published in *JBI Evidence Synthesis* were available for download in the January, May, June and September issues of the journal. Social media posts promoting these Best Practice Information Sheets resulted in almost 20,000 impressions.

The integrity and quality of resources are supported by a dedicated in-house team at JBI. Our team works in collaboration with external groups to guide resource development and ensure the evidence reflects the most up-to-date best practices.

Languages Other Than English (LOTE) and Derivate Product Programs

The LOTE and derivate product programs have been instrumental in fostering international collaboration and contributing to the dissemination of systematic review findings since 2019.

In 2023, three agreements continued for Best Practice Information Sheet (BPIS) translation into Portuguese, Italian and Turkish.

The *Journal of Nursing and Health Sciences* in Singapore continued to publish and disseminate eight English BPIS in 2023.

JBIEVIDENCE SYNTHESIS

A/Prof Edoardo Aromataris
Editor in Chief

JBIEvidence Synthesis is a multidisciplinary journal that publishes rigorous evidence syntheses relevant for a range of healthcare contexts and health conditions. It is the premier channel for diverse systematic reviews that move beyond effectiveness. All systematic reviews published apply JBI methodology and methods.

Highlights

- Received first impact factor of 2.7.
- Published two special issues: one curated by co-guest editors on health professional education and the other on JBI methodology for conducting evidence synthesis.
- Launched the first article series on risk of bias, which included JBI's revised critical appraisal tool for assessing the risk of bias in randomised controlled trials.
- Ranked Q1 in the SCImago Journal Rank for the category of nursing, the journal has achieved a ranking of 24/161.

Exciting initiatives in 2023

Together with six other international scientific journals, *JBIEvidence Synthesis* co-published an important paper on conducting and reporting systematic reviews. 'Guidance to best tools and practices for systematic reviews' presented the various components of a systematic review and presented strategies and available tools for conducting a trustworthy review.

Nine translated abstracts of systematic and scoping reviews were submitted by authors proficient in languages other than English to accompany their reviews. The abstract translations included Arabic, Danish, Finnish, French, German, Japanese, Spanish and Vietnamese. The authors have responded enthusiastically with the opportunity to reach a wider audience with these translations.

In addition to launching the risk of bias article series, Methodology Month in March 2023 (Issue 3), included the latest recommendations from the JBI Scoping Review Methodology Group for extracting, analysing and presenting results in scoping reviews, one of our most popular methodologies.

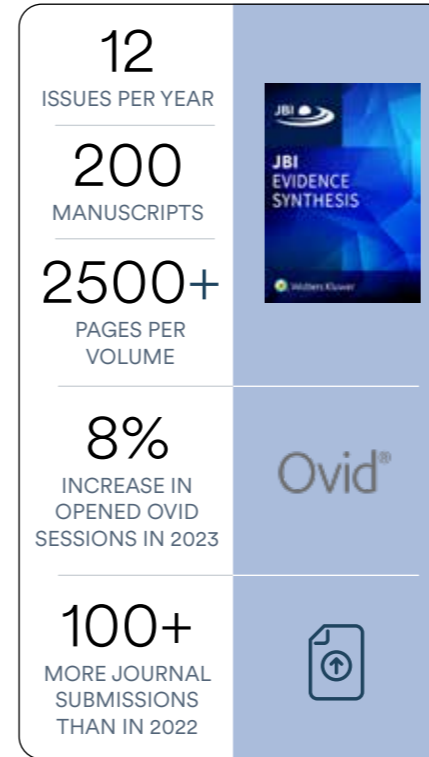

The Issue 10 editorial marked **World EBHC Day** and the 2023 campaign, 'Evidence and Global Health Equity'.

Special methodology issue

Issue 3 was a methodology-themed issue featuring some of the latest developments from JBI and the JBI methodology groups.

Digital content such as video abstracts and podcasts complemented the issue's methodology papers.

A digital media campaign highlighting the strengths and uniqueness of JBI methodology coincided with the special methodology issue of *JBIEvidence Synthesis*.

Key metrics from the journal platform

Ovid usage continued to increase in 2023. 223,395 Ovid sessions were opened in 2022, while 242,820 sessions were opened in 2023, an increase of 8%. Sessions opened on Ovid in 2023 led to 394,873 article views.

There has been an increase in submissions to the journal in 2023 for the first year since 2020. The journal received just over 100 more submissions than in 2022.

Editorials in motion

Video editorials highlight the takeaway points of the commentaries and discussion pieces displayed over impactful imagery and offer a new way for readers to engage with our content.

Ten 'editorials in motion' were published in 2023. These received 1,224 views in total.

Submissions

The journal received submissions from 43 countries in 2023. Overall, there was a 22% increase in submissions from 2022 to 2023, with a total of 573 submissions in 2023 compared with 468 in 2022. The acceptance rate in 2023 was 30%.

JBI EVIDENCE IMPLEMENTATION

A/Prof Craig Lockwood
Co-Editor in Chief

Prof Ian Graham
Co-Editor in Chief

JBI Evidence Implementation is theory-informed and pragmatically focused, publishing case studies and papers from diverse clinical, cultural and socio-economic contexts that address the science and practice of evidence implementation into healthcare policy and practice.

Highlights

- The journal's impact factor increased to 2.3.
- Website traffic increased in 2023 by 27%. In 2023, 108,875 articles were viewed and a total of 74,598 sessions opened.
- 18 videos were released as supplementary content for published articles and hosted on the *JBI Evidence Implementation* website.
- The journal is in the top 100 rankings for journals in both its categories: Health Care Science and Service Index; and Medicine, General and Internal.

JBI Evidence Implementation Network

The quarterly supplement to the journal, the *JBI Evidence Implementation* eBulletin, has 2,733 subscribers - an increase of 5.5% from 2022 and an increase of 14% in the open rate. Submissions to the eBulletin also increased, with consistent contributions from senior members across the various fields of healthcare practice, including research, education and patient care.

The number of followers on X (formerly Twitter) grew to more than 10.7k in 2023. The journal has broadened its outreach by establishing a LinkedIn presence. The LinkedIn page has experienced remarkable growth, with follower numbers increasing by an average of 15%.

Key metrics from the journal platform

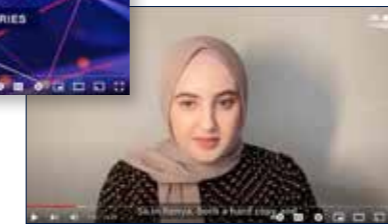

Total page views = 209,614

Total visits = 131,661

Total visitors = 96,547

Submissions

The journal received 145 submissions in 2023 compared with 79 in 2022. The increase is due to a rise in the number of 'Original Research' and 'Implementation Project' submissions.

JBIM SOFTWARE

JBISUMARI

JBISUMARI is an online software tool designed to provide end-to-end support for authors conducting systematic reviews and scoping reviews.

'We particularly like that JBI SUMARI supports development of different review methodologies with specific built-in tools for each type of review.'

Dr Mary-Anne Ramis RN PhD, Knowledge Translation Coordinator, Mater Health, Queensland, Australia

'I have been conducting systematic reviews for more than 15 years now and have used several different methods for managing the review processes and data, and JBI SUMARI is by far the most useful across the whole review timeline. I particularly appreciate the integrated risk of bias/critical appraisal instruments for so many study types and the flexible function to prompt independent two-person review with third-reviewer adjudication or single review depending on the needs of the project.'

Dr Sonia Hines RN, Director of the Mparntwe Centre for Evidence in Health, Flinders University, Australia

'Our students are often initially overwhelmed with the systematic review process, but the software helps students realize that it is conquerable when managed in phases, as outlined in JBI SUMARI.'

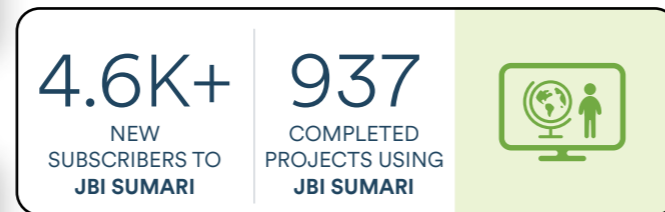

A/Prof Michelle Palokas, DNP, RN, CPN, Assistant Dean for Accreditation and Evaluation, School of Nursing, University of Mississippi Medical Center, Jackson, MS, USA

JBISUMARI includes protocol development, title, abstract and full-text screening, critical appraisal, data extraction, synthesis and preparing the review report - all within the one online software program.

JBISUMARI's easy-to-use critical appraisal tools are embedded in JBISUMARI for multiple and diverse review types, making it easier to conduct rigorous and robust reviews.

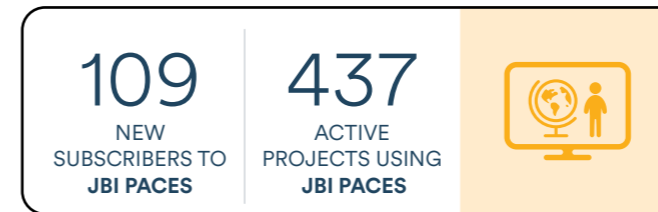

Highlights

- The total number of individual subscribers increased to 5,192
- The total number of organisation subscribers increased to 4,776
- 4,608 new subscribers to JBISUMARI
- 937 completed projects using JBISUMARI

JBIPACES

JBIPACES (Practical Application of Clinical Evidence System) is intuitive software that assists healthcare professionals to conduct clinical audits in their local setting.

JBIPACES has been developed by clinicians, for clinicians, to improve the quality and safety of healthcare and patient outcomes. JBIPACES embeds JBI's gold standard 'Getting Research into Practice' approach—a guided process for teams to work through change management.

Highlights

- The total number of subscribers to JBIPACES increased to 1,802
- The number of active projects using JBIPACES increased to 437
- 109 new subscribers to JBIPACES in 2023

'We chose JBI PACES to guide our big multi-site evidence implementation project to standardize the pre-treatment assessment for cancer patients undergoing chemotherapy because it clearly guides the audit process and the steps could be easily followed by clinical nurses who often don't know how to apply evidence to clinical practice.'

Yanni Wu, Advanced Research Nurse, Nanfang Hospital, Guangdong Province, PR China

'Following the JBI GRIP approach, we used JBI PACES to conduct an audit of nursing clinical handover practices, implement evidence-based best practice recommendations and assess the effectiveness of these strategies to maximise the effectiveness of clinical handover across 11 units in a large tertiary hospital. By the end of the project, attitudes toward nursing clinical handover had been transformed from a passive routine 'must do' task to an active process with a focus on safety and patient/carer engagement. Nurses facility-wide have been empowered to utilise the best available evidence to inform decision-making at the point of care, leading to better patient outcomes.'

Kylie Wright, Director of Patient Safety & Quality, Liverpool Hospital, Sydney, Australia

'We used JBI PACES and the JBI Getting Research into Practice (GRIP) approach to help improve care quality for newborns in the NICU... Our follow-up audit conducted with JBI PACES found that after three months of implementing and promoting the improvement measures, approximately 90% of the nurses in the NICU could correctly assess the oral condition of a newborn. The rate at which the nurses performed newborn oral care correctly increased from 20% to more than 90% and the mean incidence of oral problems decreased from 45.16% to 12.32%. This is a big win for newborns in the NICU.'

Yong-Chuan Chen, NICU Head Nurse, Taichung Veterans General Hospital, Taichung, Taiwan.

GLOBAL NETWORKS

The JBI Collaboration harnesses the diverse strength of its members to connect members in new and innovative ways, empowering them to work together, communicate and share knowledge.

JBI's global collaborative evidence network, the JBI Collaboration (JBIC), spans 80+ universities, hospitals, health facilities and NGOs in 38 countries. These entities lead evidence-based initiatives in their community or region, directed by the knowledge needs of local clinicians and consumers.

The JBIC consists of JBI Centres of Excellence and Affiliated Groups. These entities are driven by a unified purpose—to improve the quality and outcomes of healthcare globally through the delivery of high-quality programs of evidence synthesis, transfer and implementation. The JBIC harnesses the diverse strength of its members to connect members in new and innovative ways, empowering them to work together, communicate and share knowledge. The network leverages existing resources to tackle large and complex problems in healthcare globally using JBI's approach to evidence-based healthcare.

2023 saw the return to face-to-face events, training and meetings. Many JBIC Entities began to resume the delivery of JBI short courses, both remotely (online) and face-to-face. As a global collaborative evidence network, the JBIC maintained its strength and willingness to share and collaborate with colleagues from around the world in the promotion of evidence-based healthcare. The 70th JBIC Meeting was held face-to-face in Adelaide in November—the first time since 2019. Across three days, we met with 120 JBIC directors, convenors, deputies and staff from five regions to plan the way forward for 2024.

We were pleased to welcome eight new Affiliated Groups in 2023: from the University of Newcastle, Australia; Brandenburg Medical School Theodor Fontane, Germany; Manbhumi Ananda Ashram Nityananda Trust, India; Karaganda Medical University, Kazakhstan; University of Santo Tomas, Philippines; Henan Provincial People's Hospital, PR China; University of Pretoria, South Africa; and Hung Hsing Hsueh Home Nursing Care Clinic, Taiwan. We are proud to acknowledge 41 Centres of Excellence and 45 Affiliated Groups as a part of the global JBI family in 2023.

Africa

The JBI Africa region consists of nine JBI Centres of Excellence and Affiliated Groups in six countries.

Regional JBIC Outputs

- Trained 304 participants in JBI's Comprehensive Systematic Review Training Program and 28 participants in JBI's Evidence Implementation Training Program
- One JBI systematic review was accepted for publication in *JBI Evidence Synthesis*
- One JBI implementation report was accepted for publication in *JBI Evidence Implementation*
- Contributed to the publication of two JBI methodology papers
- Two members contributed to JBI Methodology Groups
- Mentored one JBI Affiliated Group
- Held four JBI gLocal Solution Room Events in three countries

Effective Basic Services Africa: A JBI Affiliated Group

Host Institution - eBase
Region - Bamenda, Cameroon, Africa
Joined JBI - 2017

Director - Dr Okwen Patrick Mbah

Entity core staff:
Olivette Chia, Patience Anegub Anjofui, Bedes Young Ngem, Rigobert Pambe, Nafisah Chotun, Aweh Annih Akofu,

Melaine Msaikila, Gillian Tsafor, Tatianne Ambang, Andrew Tangang, Nji Modesta Tamam, Maryann Zithem Mbangsi, Emmanuel Berinyuy Kamga, Anendam Larinet.

The Cameroon Centre for Evidence Based Health Care: A JBI Centre of Excellence

Host Institution - Cameroon Centre for Evidence Based Health Care
Region - Yaounde, Cameroon, Africa
Joined JBI - 2008

Director - Asahngwa Constantine Tanywe

Entity core staff:
Kah Evans, Alfred Ngimezong, Khan Loveline, Mercy Che, Bleck Che.

Ethiopian Knowledge Translation Group for Health: A JBI Affiliated Group

Host Institution - Ethiopia Public Health Institution
Region - Addis Ababa, Ethiopia, Africa
Joined JBI - 2020

Director - Mr Sabit Ababor

Entity core staff:
Mamuye Hadis Tefera, Dagmawit Solomon Lebassie, Ermias Woldie Amerga, Tsegaye Getachew Mekonnen, Desalegn Ararso Garoma,

Samson Mideksa Legesse, Fasil Mengestu Deribe, Tesfaye Dagne Woldemariam, Zelalem Kebede, Firmaye Bogale Wolde.

Ethiopian Evidenced Based Healthcare and Development Centre: A JBI Centre of Excellence

Host Institution - Jimma University
Region - Jimma, Ethiopia, Africa
Joined JBI - 2008

Director - Dr Morankar Sudhakar

Entity core staff:
Hiwot Berhanu, Firanbon Teshome Gonfa, Gelila Abraham, Yibeltal Siraneh, Desta Hiko, Sena Belina, Kalkidan Hassen, Yisalemush Asefa,

Minyahil Tadesse.

The Kintampo Health Research Centre: A JBI Centre of Excellence

Host Institution - Kintampo Health Research Centre
Region - Ghana, Africa
Joined JBI - 2008

Director - Dr Yeetey Akpe Kwesi Enuameh

Entity core staff:
Martin Amogre Ayanore, Kenneth Ae-Ngibise, Obed Ernest Nettey, Lucy Asamoah-Akuoko, Gyaami Amoah, Thomas Kwasi Gyan, Francis Dzabeng,

Emmanuel Nashiru Mahama, Divine Darlington Logo, Sitsofe Gbogbo.

Afya Research Africa (ARA): A JBI Centre of Excellence

Host Institution - Afya Research Africa
Region - Nairobi, Kenya, Africa
Joined JBI - 2008

Director - Dr Clifford Mwitia

Entity core staff:
Ruth Anyango, Leah Mwai, Henry Amdany, Samson Gwer, Elizabeth Ombech, Koki Mutungi, Lydia Akumu, Rosa Chemwey.

Center for Global Health Equity Evidence: A JBI Affiliated Group

Host Institution - The University of Global Health Equity
Region - Kigali, Rwanda, Africa
Joined JBI - 2021

Director - Mr Anthony Kiuna

Entity core staff:
Olivia Clarke, Solange Nakure, Andre Ndayambaje, Jovial Thomas Ntawukuriryayo, Robert Ojiambo, Daniel

Seifu, Tsion Yohannes, Judy Khanyola, Arlene Nishimwe, Tayechalem Moses Girma.

The Wits-JBI Centre for Evidence-Based Practice: A JBI Centre of Excellence

Host Institution - University of the Witwatersrand
Region - Johannesburg, South Africa, Africa
Joined JBI - 2004

Director - Prof Ronel Roos

Entity core staff:
Aimee Stewart, Benita Olivier, Loveth Obiora, Kholofelo Mashola, Shelley Schmollgruber, Dorothy Shead, Chuka Umeonwuka.

Ekurhuleni Clinical Research Centre: A JBI Affiliated Group

Host Institution - University of Pretoria
Region - Ekurhuleni, South Africa, Africa
Joined JBI - 2023

Director - Dr Jayati Kusari

Australasia

The JBI Australasia region consists of eight JBI Centres of Excellence and Affiliated Groups in Australia.

Regional JBIC Outputs

- Trained 58 participants in JBI's Comprehensive Systematic Review Training Program
- Six JBI systematic reviews were accepted for publication in *JBI Evidence Synthesis*
- Two members contributed to JBI Methodology Groups
- Mentored two JBI Affiliated Groups and prospective JBIC Entities in two countries
- Held three JBI gLocal Solution Room Events

International Centre for Allied Health Evidence: A JBI Affiliated Group

Host Institution - University of South Australia
Region - Adelaide, Australia, Australasia
Joined JBI - 2021

Director - A/Prof Steve Milanese

Entity core staff:
Ryan Causby, Dannielle Post, Scott Weeks, Munyane Mophosho, Narasimman Swaminathan, Annah Lesunyane, Carla Lage,

Zara Soden, Judith Merritt.

Mparntwe Centre for Evidence in Health, Flinders University: A JBI Centre of Excellence

Host Institution - Flinders University
Region - Alice Springs, Australia, Australasia
Joined JBI - 2018

Director - Dr Sonia Hines

Entity core staff:
Karla Canuto, Tobias Speare, Yu-Sheng Tsai, Lorna Murakami-Gold, James Smith, Hila Dafny, Anthea Brand, Melissa Ridd, Chris Rissel, Nicole Scholes-Robertson.

The Queensland Centre for Evidence Based Nursing and Midwifery: A JBI Centre of Excellence

Host Institution - Mater Hospital Brisbane
Region - Brisbane, Australia, Australasia
Joined JBI - 1997

Director - Dr Kate Kynoch

Entity core staff:
Kelly Foster, Claire Kelly, Leila Karimi, Sharon Rees, Luke Burgess, Loretta Anderson, Sonya Osborne, Cara Cabilan, Hanan Khalil.

Charles Darwin Centre for Evidence-Based Practice: A JBI Affiliated Group

Host Institution - School of Nursing, Charles Darwin University
Region - Darwin, Australia, Australasia
Joined JBI - 2022

Co-Convenors - Dr Xian-Liang (Daniel) Liu, Dr Brona Nic Giolla Easpaig, Dr Alison Wang

Entity core staff:
Joanne Finn, Penelope Sweeting, Daniel Bressington, Alison Wang, Li-Qun Yao, Sarah Mills, Jutharat Attawat, Sara Shisheghar.

The Centre for Evidence Informed Nursing, Midwifery and Healthcare Practice: A JBI Affiliated Group

Host Institution - Edith Cowan University
Region - Perth, Australia, Australasia
Joined JBI - 2019

Director - Professor Lisa Whitehead

Entity core staff:
Esther Adama, Linda Coventry, Beverly Ewens, Helena Halton, Deborah Kirk, Christine Mackey, Amineh Rashidi, Amanda Towell-Barnard,

Carol Wang, Pelden Chejor.

Centre for Transformative Nursing, Midwifery and Health Research: A JBI Centre of Excellence

Host Institution - University of Newcastle
Region - Gosford, Australia, Australasia
Joined JBI - 2023

Directors - Prof Ritin Fernandez and Prof Alison Hutton

The Western Australian Group for Evidence Informed Healthcare Practice: A JBI Centre of Excellence

Host Institution - Curtin University
Region - Perth, Australia, Australasia
Joined JBI - 1997

Director - Assoc Prof Janie Brown

Entity core staff:
Heather Kidd, Robin Watts, Mary Tallon, Janie Brown, Nicole Pope, Emily Haesler, Terena Solomons.

The New South Wales Centre for Evidence Based Health Care: A JBI Affiliated Group

Host Institution - University of Western Sydney
Region - Sydney, Australia, Australasia
Joined JBI - 2001

Director - Dr Sheeja Perumbil Pathrose

Entity core staff:
Margaret Broom, Hannah Dahlen, Bronwyn Everett, Antoinette Cotton, Jann Foster, Olayide Ogunsiiji, Christine Taylor, Suza Trajkovski, Kaye Spence,

Gladis Kabil.

Americas

The JBI Americas region consists of 18 JBI Centres of Excellence and Affiliated Groups in seven countries.

Regional JBIC Outputs

- Trained 262 participants in JBI's Comprehensive Systematic Review Training Program and 47 participants in JBI's Evidence Implementation Training Program
- Eight JBI systematic reviews were accepted for publication in *JBI Evidence Synthesis*
- 15 JBI implementation reports were accepted for publication in *JBI Evidence Implementation*
- Contributed to the publication of six JBI methodology papers
- 11 members contributed to JBI Methodology Groups
- Mentored two JBI Affiliated Groups in two countries
- Held six JBI gLocal Solution Room Events in three countries

The Brazilian Centre for Evidence-based Healthcare: A JBI Centre of Excellence
Host Institution - Escola de Enfermagem da Universidade de São Paulo
Region - São Paulo, Brazil, Americas
Joined JBI - 2008

Director - Professor Vilanice Alves de Araujo Puschel

Entity core staff:
 Kelli Borges Dos Santos, Marília Mastrocolla de Almeida Cardoso, Ivone Evangelista Cabral, Juliana Rizzo Gnatta, Diná de Almeida Lopes Monteiro

da Cruz, Larissa Bertacchini de Oliveira, Fernanda Ayache Nishi, Flavia de Oliveira Motta Maia, Maria Luiza Gonzalez Riesco Bellini, Vanessa de Brito Poveda, Juliana Akie Takahashi, Caroline Figueira Pereira, Fabio da Costa Carbogim, Luciana Ogawa, Cristiane Cardoso de Paula, Ana Paula Almeida Brito, Marlise de Oliveira Pimentel Lima, Wendel Mombaqua Dos Santos, Lilia de Souza Nogueira.

The University of Victoria (UVic) Centre for Evidence-Informed Nursing and Healthcare (CEiNHC): A JBI Centre of Excellence

Host Institution - University of Victoria
Region - British Columbia, Canada, Americas
Joined JBI - 2016

Co-Directors - Dr Dzifa Dordunoo, Dr Diane Sawchuck

Entity core staff:
 Bernadette Zakher, Lorelei Newton, Katherine Bertoni, Ingrid Handlovsky, Lenora Marcellus, Karen MacKinnon, Darlaine Jantzen, Shahin Kassam.

Aligning Health Needs and Evidence for Transformative Change (AH-NET-C): A JBI Centre of Excellence

Host Institution - Dalhousie University
Region - Halifax, Canada, Americas
Joined JBI - 2016

Director - Prof Marilyn Macdonald

Entity core staff:
 Kelly Lackie, Melissa Rothfus, Audrey Steenbeek, Elaine Moody, Andrea Murphy, Ruth Martin-Misener, Marsha Campbell-Yeo, Megan

Aston, Lori Weeks, Damilola Iduye, Erin Langman.

Queen's Collaboration for Health Care Quality: A JBI Centre of Excellence

Host Institution - Queen's University
Region - Kingston, Canada, Americas
Joined JBI - 2004

Co-Directors - Dr Christina Godfrey, Dr Andrea Tricco

Entity core staff:
 Rylan Egan, Danielle Macdonald, Aleksandra Zuk, Marian Luctkar-Flude, Amanda Ross-White, Erna Snelgrove-Clarke, Genevieve Pare, Agnes Alsius.

The University of New Brunswick (UNB) Saint John Collaboration for Evidence-Informed Healthcare: A JBI Centre of Excellence

Host Institution - University of New Brunswick
Region - Saint John, Canada, Americas
Joined JBI - 2016

Director - Associate Professor Lisa Keeping-Burke

Entity core staff:
 Patricia Morris, Caroline Gibbons, Alison Luke, Catherine Hamilton, Loretta Waycott, Karen Furlong, Alex Goudreau, Shelley Doucet, Emily

Gregg, Isdore Chola Shamputa, Rosann Edwards.

Memorial University School of Nursing Collaboration for Evidenced-Based Nursing and Primary Health Care: A JBI Affiliated Group

Host Institution - Memorial University of Newfoundland
Region - St. John's, Canada, Americas
Joined JBI - 2016

Director - Dr Karen Parsons

Entity core staff:
 Kimberly Jarvis, Julia Lukewich, Joanne Smith-Young, Michelle Swab, Kathleen Stevens, April Pike, Alice Gaudine, Jill Bruneau, Karen Dobbin-

Williams.

Costa Rican Evidence-Based Nursing Research Collaboration Program (CIEBE-CR): A JBI Affiliated Group

Host Institution - Universidad de Costa Rica

Region - San Jose, Costa Rica, Americas
Joined JBI - 2018

Director - Faride Barrantes Morales

Entity core staff:
 Ligia Rojas, Viriam Leiva Diaz, Ramón Masís, Luis Hernández, Beatriz Villalobos Nuñez, Patricia Vargas, Rocio Barrientos, Priscilla

Carmiol, Zeidy Vargas, Sophia Gonzalez.

South America EBHC: A JBI Affiliated Group

Host Institution - Universidad Maria Auxiliadora
Region - Lima, Peru, Americas
Joined JBI - 2019

Director - Prof. Patrick Palmieri

Entity core staff:
 Roger Perez-Garcia, César Bonilla-Asalde, Doris Gonzales-Carhuajulca, Wanda Bustamante Munoz, Joan Edwards, Sandra Cesario, Genesis

M. Guevara-Vasquez, Juan Leyva-Moral, Blanca Loayza-Enrique.

RFU Center for Interprofessional Evidence Based Practice: A JBI Centre of Excellence

Host Institution - Rosalind Franklin University of Medicine and Science
Region - Chicago, USA, Americas
Joined JBI - 2016

Director - Dr Jennifer Greenwood

Entity core staff:
 Lori Thuente, Lori Anderson, Lynn Janas, Franklin McShane, Charlotte Beyer, Katie Rose McEneely, Sara Timko, Julie Schwertfeger, Peter Ferszt, Paul Hung.

Lurie Children's Paediatric Research & Evidence Synthesis Center (PRESCIIE): A JBI Affiliated Group

Host Institution - Ann & Robert H. Lurie Children's Hospital of Chicago
Region - Chicago, USA, Americas
Joined JBI - 2021

Director - A/Prof Renee Manworren

Entity core staff:
 Sue Horner, Audrey Rosenblatt, Inga Uremovich, Andrea Fawcett, Michelle High, Maria Rahmandar, Eileen Romano.

The Center for Translational Research: A JBI Affiliated Group

Host Institution - Texas Christian University
Region - Fort Worth, USA, Americas
Joined JBI - 2008

Director - A/Prof Dru Riddle

Entity core staff:
 Brian Edward Benham, Glenda Daniels, Diane Hawley, Kathy Speer, Marilee Schmelzer.

Indiana Center for Evidence Based Nursing Practice:

A JBI Centre of Excellence
Host Institution - Purdue University Northwest
Region - Hammond, USA, Americas
Joined JBI - 2004

Director - Prof Lisa Hopp

Entity core staff:
 Janet Davis, Mary Morrow, Taryn Eastland, Dianne Hoekstra, Manisa Baker, Marianne Schallmo, Jodi Allen, Amanda Kratovil-Mailhiot.

Touro University Nevada:

A JBI Affiliated Group
Host Institution - Touro University Nevada
Region - Henderson, USA, Americas
Joined JBI - 2019

Director - Associate Professor Catie Chung

Entity core staff:
 Megan DeArmond, Cynthia Lau, Steven Liaos, Matthew Martin, Theresa Tarrant, Cheryl Vanier, John Rider, Amy Stone, Patricia Strobehn,

Kristin Valdes.

Mississippi Centre for Evidence Based Practice: A JBI Centre of Excellence

Host Institution - University of Mississippi Medical Center
Region - Jackson, USA, Americas
Joined JBI - 2017

Director - A/Prof Robin Christian

Entity core staff:
 Christian Pruett, Elizabeth Hinton, Karen Winters, Jacqueline Phillips, Amy Wonder, Julie Sanford, Victoria Gholar, Lei Zhang, Candon Garbo, Linda Upchurch.

LLUH Center for Evidence Synthesis: A JBI Affiliated Group

Host Institution - Loma Linda University Health
Region - Loma Linda, USA, Americas
Joined JBI - 2022

Director - Dr Jan Nick

Entity core staff:
 Olayemi Adeoye, Jung Wei Chen, Noha Daher, Kelly Morton, Ellen D'Errico, Patti Radovich, Shanalee Tamares.

The Louisiana Centre for Promotion of Optimal Health Outcomes: A JBI Centre of Excellence

Host Institution - LSUHSC School of Nursing
Region - New Orleans, USA, Americas
Joined JBI - 2011

Co-Directors - Dr Demetrius Porche, Dr Deborah Garbee

Entity core staff:
 Julie Schiavo, Jennifer Badeaux, Marsha Bennett, Laura Bonanno, Jennifer Manning, Rebecca Barnes, Connie Brider, Jamie Wiggins.

The Northeast Institute for Evidence Synthesis and Translation: A JBI Centre of Excellence

Host Institution - Rutgers, The State University of New Jersey
Region - Newark, USA, Americas
Joined JBI - 2004

Co-Directors - Prof Susan Salmond, Dr Cheryl Holly

Entity core staff:
 Irina Benenson, Cathy Concert, Aileen Fitzpatrick, Andrea Norberg, Sallie Porter, Rubab Qureshi, Jo-Ann Singleton, Priscilla Worral.

UCSF Centre for Evidence Implementation: A JBI Centre of Excellence

Host Institution - University of California San Francisco Medical Centre
Region - San Francisco, USA, Americas
Joined JBI - 2027

Director - Adam Cooper

Entity core staff:
 Anjal Pong, Lauren Frahm, Michael Francis, Elisa Jang.

Europe

The JBI European region consists of 21 JBI Centres of Excellence and Affiliated Groups in 16 countries.

Regional JBIC Outputs

- Trained 192 participants in JBI's Comprehensive Systematic Review Training Program and 44 participants in JBI's Evidence Implementation Training Program
- Two JBI systematic reviews were accepted for publication in *JBI Evidence Synthesis*
- 14 JBI implementation reports were accepted for publication in *JBI Evidence Implementation*
- Contributed to the publication of nine JBI methodology papers
- 19 members contributed to JBI Methodology Groups
- Mentored five current and prospective JBI Affiliated Groups in four countries
- Held 10 JBI gLocal Solution Room Events in nine countries

JBI Belgium: A JBI Affiliated Group
Host Institution - Cochrane Belgium
Region - Leuven, Belgium, Europe
Joined JBI - 2010

Director - Director Marleen Corremans

Entity core staff:
 Nancy Durieux, Cecile Piron, Ingeborg Simpelaere, Nadine Jacqmin, Trudy Bekkering, Karin Hannes, Christel Daemen, Jef Adriaenssens, Sophie Verhaeghe, Anne-Catherine Vanhove.

The Czech Republic: A JBI Centre of Excellence

Host Institution - Institute of Health Information and Statistics of the Czech Republic
Region - Brno, Czech Republic, Europe
Joined JBI - 2014

Director - A/Prof Miloslav Klugar

Entity core staff:
 Dagmar Tuckova, Tereza Vrbová, Abanoub Riad, Andrea Pokorna, Simona Slezakova, Radim Licenik, Ondrej Volny, Alena Langaufova, Tereza Friessova, Mohammad Salman Hussain.

Center of Evidence-based Education & Arts Therapies: A JBI Affiliated Group

Host Institution - Palacky University Olomouc
Region - Olomouc, Czech Republic, Europe
Joined JBI - 2021

Director - Dr Jiri Kantor

Entity core staff:
 Katerina Veselá, Monika Bucharova, Linda Horvathova, Milon Potmesil, Petra Potmesilova, Dagmar Sedlackova, Tereza Zahradnikova, Jiri Kamenik, Monika Smoliková, Zuzana Svobodova.

Danish Centre of Systematic Reviews: A JBI Centre of Excellence

Host Institution - University of Aalborg
Region - Aarhus, Denmark, Europe
Joined JBI - 2011

Director - Prof Merete Bender Bjerrum

Entity core staff:
 Linda Schumann Scheel, Britt Laugesen, Lisbeth Uhrenfeldt, Jette Thiese Pedersen, Sanne Toft Kristiansen, Mette Kragh, Mette Spliid Ludvigsen, Preben Ulrich Pedersen.

Finnish Centre for Evidence-Based Health Care: A JBI Centre of Excellence

Host Institution - Nursing Research Foundation
Region - Helsinki, Finland, Europe
Joined JBI - 2010

Director - Dr Arja Holopainen

Entity core staff:
 Anna-Maria Tuomikoski, Tarja Polkki, Ulla-Mari Kinnunen, Marita Koivunen, Kristiina Junntila, Maria Kääriäinen, Lotta Hamari, Kristiina Heikkilä, Heidi Parisod.

The Centre for Evidence-Based Public Health: A JBI Affiliated Group

Host Institution - Norwegian University of Life Sciences
Region - As, Norway, Europe
Joined JBI - 2018

Director - Associate Professor Ruth Raanaas

Entity core staff:
 Linn Benjaminsen Holvold, Grete Grindal Patil, Beate Fonhus, Sheri-Lee Bastien.

Iranian EBM Centre: A JBI Centre of Excellence

Host Institution - Tabriz University of Medical Sciences
Region - Tabriz, Iran, Europe
Joined JBI - 2017

Director - Dr Sakineh Hajabrahimi

Entity core staff:
 Mahasti Alizadeh, Fatemeh Ranjbar, Hadi Mostafaie, Ali Mostafaie, Amin Talebpour, Fariba Ghaderi, Neda Kabiri, Alireza Mahboub-Ahari, Fariba Pashazadeh, Mohammad-Zakaria Pezeshki, Reza Pourabbas, Homayoun Sadeghi-Bazarghani, Fatemeh Sadeghi-Ghyassi, Hanieh Salehi-Pourmehr.

CECRI Evidence-based practice group for Nursing Scholarship: A JBI Affiliated Group

Host Institution - Center of Excellence for Nursing Scholarship
Region - Rome, Italy, Europe
Joined JBI - 2018

Director - Dr Daniela D'Angelo

Entity core staff:
 Lucia Mauro, Marina Palombi, Kusumam Pampoorickel, Antonello Pucci, Silvia Sferrazza, Valentina Vanzi, Angela Peghetti.

Trinity Centre for Practice & Healthcare Innovation, Trinity College Dublin: A JBI Affiliated Group

Host Institution - Trinity College Dublin, The University of Dublin
Region - Dublin, Ireland, Europe
Joined JBI - 2017

Director - Dr Anne-Marie Brady

Entity core staff:
 Vivienne Brady, Valerie Smith, Jessica Eustace-Cook, Louise Daly, Carmel Doyle, Louise Doyle, Mary Mooney, Frances O'Brien, Sharon O'Donnell.

Evidence Based Practice in Brandenburg: A JBI Affiliated Group

Host Institution - JBI EBB at Brandenburg Medical School Theodor Fontane
Region - Berlin, Germany, Europe
Joined JBI - 2023

Director - Dr Robert Prill, Prof Dawid Pieper

Portugal Centre for Evidence Based Practice: A JBI Centre of Excellence

Host Institution - Escola Superior de Enfermagem de Coimbra
Region - Coimbra, Portugal, Europe
Joined JBI - 2011

Director - Prof João Apóstolo

Entity core staff:
 Sílvia Caldeira, Adriana Coelho, Vitor Oliveira Parola, Rosa Silva, Carmen Queirós, Hugo Neves, Eduardo Santos, Daniela Cardoso, Antonio Manuel Fernandes, Amorim Rosa, Antonio Marques, Márcia Santos, Ana Filipa Cardoso.

Public Health Evidence Based Romanian Centre: A JBI Affiliated Group

Host Institution - Scoala Nationala de Sanatate Publica
Region - Bucharest, Romania, Europe
Joined JBI - 2007

Director - Assoc Prof Raluca Sfetcu

Entity core staff:
 Marius Ciutan, Ruxandra Ingrid Diaconescu, Cristina Lupan, Constanta Mihaescu-Pintia, Mona Victoria Moldovan, Simona Nicoleta Musat, Cristian Vladescu, Carmen Camelia Sasu, Daniela Georgeta Popovici, Adina Geana.

Romanian Centre for Nursing Research: A JBI Centre of Excellence

Host Institution - The Order of Nurses, Midwives and Medical Assistants in Romania, Bucharest Branch
Region - Bucharest, Romania, Europe
Joined JBI - 2010

Director - Assist. Prof. Doina Carmen Mazilu

Entity core staff:
 Claudia Elena Dobre, Viorica Nedelcu, Daniela Stan, Florentina Furtunescu.

The Scottish Centre for Evidence-based, Multi-professional Practice: A JBI Centre of Excellence

Host Institution - Robert Gordon University
Region - Aberdeen, UK, Europe
Joined JBI - 2004

Director - Dr Kay Cooper

Entity core staff:
 Denise Penny, Anastasia Pavlova, Emma Stage, Fiona Work, Donna Wynne, Fiona Roberts, Audrey Stephen, Paul Swinton, Jo Shim.

Bureau d'Echange des Savoirs pour des pratiques exemplaires de soins (BEST): A JBI Centre of Excellence

Host Institution - Institut universitaire de formation et de recherche en soins
Region - Lausanne, Switzerland, Europe
Joined JBI - 2011

Director - Prof Véronique de Goumoëns, Prof Nancy Helou

Entity core staff:

Cedric Mabire, Anne-Sylvie Ramelet, Coraline Stormacq, Fabienne Hadorn, Béatrice Perrenoud, Corinne Jotterand Chaparro, Véronique Hasler, Carine Praz, Soraya Bieri, Melanie Verdon.

Centre for Health Consumer Ethics and Evidence-Based Gender Health Care: A JBI Affiliated Group

Host Institution - Technical University of Darmstadt
Region - Lucerne, Switzerland, Europe
Joined JBI - 2020

Co-Convenors - Dr Gerhard Schreiber, Dr Claudia Haupt

Entity core staff:
 Ohly Lukas, Marilynn Cox, Alexia Kutschmar, Paulitti Yasha, Ehret Elena, Hamilkar Oueslati, Corinna Wintzer.

The Spanish Centre for Evidence Based Nursing and Healthcare: A JBI Centre of Excellence

Host Institution - Instituto de Salud Carlos III
Region - Madrid, Spain, Europe
Joined JBI - 2004

Director - Dr Teresa Moreno-Casbas

Entity core staff:
 Adelaida Zabalegui-Yarnoz, Josefa Patricia Moreno-Pina, Marina Gallego-Jimenez, Delia Gonzalez-delaCuesta, Leticia Bernues-Caudillo,

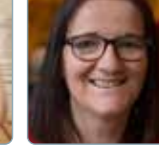

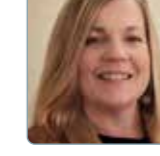

Andres Pelaez-Flores, Maria Dolores Quinoz-Gallardo, Yolanda Martin-Vaquero, Pilar Corcoles-Jimenez, Maria Angeles Cidoncha-Moreno, Ana Mateo-Cervera, Francisco Javier Iruzubuetta-Barragan, Laura Albornos-Muñoz.

The Wales Centre For Evidence Based Care: A JBI Centre of Excellence

Host Institution - Cardiff University
Region - Cardiff, UK, Europe
Joined JBI - 2006

Director - Co-Directors Dr Clare Bennett, Mrs Deborah Edwards

Entity core staff:

Dominic Roche, Nicola Evans, Anna Sydor, Mike Johnson, Clare Hawker, Elizabeth Gillen, Alison James, Anna Jones, Judit Csontos.

The University of West London Centre for Evidence-Based Healthcare: A JBI Centre of Excellence

Host Institution - University of West London
Region - London, UK, Europe
Joined JBI - 2006

Director - Prof Heather Loveday

Entity core staff:
 Mary O'Malley, Snorri Rafnsson, Victoria Tischler, Hannah Griffin, Alison Tingle, Carolyn Greene, Jennie Wilson.

The Nottingham Centre for Evidence-Based Healthcare: A JBI Centre of Excellence

Host Institution - The University of Nottingham
Region - Nottingham, UK, Europe
Joined JBI - 2003

Director - Co-Director, Prof Jo Leonardi-Bee, Dr Catrin Evans

Entity core staff:

Pippa Hemingway, Louise Bramley, Kathryn Hinsliff-Smith, Joanne Cooper, Julie McGarry, Gina Higginbottom, Kaushik Chattopadhyay.

Plymouth University Innovations in Health and Social Care: A JBI Centre of Excellence

Host Institution - Plymouth University
Region - Plymouth, UK, Europe
Joined JBI - 2015

Director - Prof Bridie Kent

Entity core staff:
 Lisa Burrows, Mary Hickson, Keith Walker, Jos Latour, Jenny Freeman, Alison James, Jill Shawe, Lorna Burns, Pam Rae.

Asia

The JBI Asian region consists of 29 JBI Centres of Excellence and Affiliated Groups in 11 countries.

Regional JBIC Outputs

- Trained 470 participants in JBI's Comprehensive Systematic Review Training Program and 25 participants in JBI's Evidence Implementation Training Program
- Two JBI systematic reviews were accepted for publication in *JBI Evidence Synthesis*
- 12 JBI implementation reports were accepted for publication in *JBI Evidence Implementation*
- Six members contributed to JBI Methodology Groups
- Mentored one JBI Affiliated Group
- Held 15 JBI gLocal Solution Rooms in six countries

Centre of Evidence-based Practice for Health Care Policy: A JBI Affiliated Group
Host Institution - School of Nursing, Hong Kong Polytechnic University
Region - Hung Hom, Hong Kong, Asia
Joined JBI - 2022

Director - Assoc Prof Jed Montayre

Entity core staff:
 Eileen Cheng, Justina Liu, Eva Ho, Arkers Wong, Grace Xie, Stefanos Tyrovolas, Katherine Lam, Patrick Kor, Alex Molasiotis, Polly Ma.

Pushpagiri Centre for Evidence Based Practice (PCEBP): A JBI Centre of Excellence

Host Institution - Pushpagiri Institute of Medical Sciences and Research Centre
Region - Kerala, India, Asia
Joined JBI - 2019

Director - Ms Nisha Kurian

Entity core staff:
 Sherly Antony, Terese Kochuvilayil, Mary Jyothi, Vijayalakshmi Gaddam, Manju Mathew, Chandu Abraham.

Amrita Centre for Evidence Based Oral Health: A JBI Affiliated Group

Host Institution - Amrita School of Dentistry, Amrita Vishwa Vidyapeetham
Region - Amrita, India, Asia
Joined JBI - 2021

Director - Dr Chandrashekar Janakiram

Entity core staff:
 Venkitachalam Ramanarayanan, Vijakumar S, Rakesh Suresh, Anil Mathew, Saranya Sree Kumar, Anju Varughese, Parvathy

Ghosh, Mridula Mohan.

Sumandeep Vidyapeeth Centre for Evidence Based Education and Health Care: A JBI Affiliated Group

Host Institution - Sumandeep Vidyapeeth
Region - Gujarat, India, Asia
Joined JBI - 2019

Director - Dr Monali Shah

Entity core staff:
 Rashmi Venkatesh, Suresh Velumani Kumar, Kalpesh Satani, Mital Thakkar, Grishma Chauhan, Aditya Agrawal, Seema Bargale, G. Palani Kumar, Ramya R, Arati Shah.

Peking University Health Science Centre for Evidence-based Nursing: A JBI Affiliated Group

Host Institution - Peking University School of Nursing
Region - Beijing, PR China, Asia
Joined JBI - 2011

Director - Dr Zhiwen Wang

Entity core staff:
 Shaomei Shang, Hua Jiang, Rui Hou, Shu-xiao Hou, Ping Yang, Li Su, Peiye Cao, Heli Zhang.

Evidence Based Nursing and Midwifery Practice PR China: A JBI Centre of Excellence

Host Institution - Southern Medical University, College of Nursing
Region - Guangzhou, PR China, Asia
Joined JBI - 2017

Director - Prof Lili Zhang

Entity core staff:
 Xiaojin Li, Ying Liu, Yansi Luo, Lanfang Zhang, Xiao Li, Ying Ren, Jieying Xie, Jinyan Wu, Huijuan Song.

Kalam Institute of Health Technology: A JBI Affiliated Group

Host Institution - Kalam Institute of Health Technology
Region - Andhra Pradesh, India, Asia
Joined JBI - 2018

Director - Dr Jitendar Sharma

Entity core staff:
 Greeshma Gopalan, Keerthan R. M, Hemanth Kumar, Deepika Rani, Nagaseshu Pudi.

Evidence Synthesis and Implementation for Indigenous Health: A JBI Affiliated Group

Host Institution - Manbhumi Ananda Ashram Nityananda Trust
Region - Kolkata, India, Asia
Joined JBI - 2023

Director - Dr Nirmalya Mukherjee, Dr Denny John

Entity core staff:
 Biswajit Mahapatra, Paramita Bhattacharya, Sajda Khatoun, Rakesh N Pillai.

The Beijing University of Chinese Medicine Centre for Evidence-based Nursing: A JBI Affiliated Group

Host Institution - Beijing University of Chinese Medicine
Region - Beijing, PR China, Asia
Joined JBI - 2015

Director - Dr Fen Zhou

Entity core staff:
 Du Jian, Tian Runxi, Yan Lijiao, Jiang Jing, Shujin Yue, Hong Guo, Hailing Guo, Yu Liu, Yufang Hao, Ruiyang Sun.

Fudan University Centre for Evidence-based Nursing: A JBI Centre of Excellence

Host Institution - Fudan University
Region - Shanghai, PR China, Asia
Joined JBI - 2004

Director - Prof Hu Yan

Entity core staff:
 Yan Liang, Zheng Zhu, Boqin Xie, Weijie Xing, Xiaobin Lai, Huijuan Lu, Yu Chen, Xiaoyan Huang.

The Chiba University Centre for Evidence Based Practice: A JBI Centre of Excellence

Host Institution - Chiba University
Region - Chiba, Japan, Asia
Joined JBI - 2017

Director - Dr Mina Ishimaru

Entity core staff:
 Hiroko Iwata, Misako Miyazaki, Emi Mori, Kieko Iida, Ikuko Sakai, Kunie Maehara, Naho Sato.

Kazakhstan Centre for Evidence-based Nursing: A JBI Affiliated Group

Host Institution - Karaganda Medical University
Region - Karaganda City, Kazakhstan Asia
Joined JBI - 2023

Director - Miss Feruza Saduyeva

Center for Health Research and Movement Science: A JBI Affiliated Group

Host Institution - Center for Health Research and Movement Science of the University of Santo Tomas
Region - Manila, Philippines, Asia
Joined JBI - 2023

Director - Prof Valentin III Dones

Entity core staff:
 Ivan Neil Gomez, Donald Manlapaz, Donald Lipardo, Maria Cristina San Jose, Paulin Grace Espino, Lyle Patrick Tangcuango,

Jeremaih Opiniano, Ma. Teresita Dalusong, Gian Carlos Torres.

PR China Nanfang Nursing Centre for Evidence-based Practice: A JBI Centre of Excellence

Host Institution - Nanfang Hospital
Region - Guangzhou, PR China, Asia
Joined JBI - 2017

Director - Prof Chunlan Zhou

Entity core staff:
 Xiaojin Li, Ying Liu, Yansi Luo, Lanfang Zhang, Xiao Li, Ying Ren, Jieying Xie, Jinyan Wu, Huijuan Song.

The Japan Centre for Evidence Based Practice: A JBI Centre of Excellence

Host Institution - Osaka University
Region - Osaka, Japan, Asia
Joined JBI - 2009

Director - Assoc Prof Miyae Yamakawa

Entity core staff:
 Motohide Miyahara, Yuki Yamagami, Yoko Higami, Shingo Ueki, Kiyoko Makimoto, Mie Shirashi, Momoe Utsumi.

Yonsei Evidence Based Nursing Centre of Korea: A JBI Affiliated Group

Host Institution - Yonsei University College of Nursing
Region - Seoul, Korea, Asia
Joined JBI - 2006

Director - Dr Mona Choi

Entity core staff:
 Hye Jung Lee, Jeongok Park, Gwang Suk Kim, Ju Hee Lee, Eui Geum Oh, Yeon Soo Jang, Sang Hee Kim.

Xiangya Center for Evidence-Based Nursing Practice & Healthcare Innovation: A JBI Affiliated Group

Host Institution - Central South University
Region - Changsha, PR China, Asia
Joined JBI - 2020

Director - Prof Siyuan Tang

Entity core staff:
 Maritta Valimaki, Honghong Wang, Xianhong Li, Yao Wang, Liqing Yue, Yamin Li, Jin Yan, Xuying Li, Jiarui Chen, Mei Sun.

The Qingdao Evidence-based Nursing Centre: A JBI Affiliated Group

Host Institution - Qingdao Women and Children's Hospital
Region - Qingdao, PR China, Asia
Joined JBI - 2016

Director - Guiling Yu

Entity core staff:
 Juan Wen, Shuran Zhao, Zhihui Li, Min Chang, Ye Liu, Qian He, Xiuli Zhu.

The Otemae University Implementation Centre: A JBI Affiliated Group

Host Institution - Otemae University
Region - Osaka, Japan, Asia
Joined JBI - 2019

Director - Dr Naoko Nishimura

Entity core staff:
 Mariko Yamamoto, Nobuko Kawai, Haruna Tanaka, Hiromi Hujii, Yuri Kasamatsu, Hisashi Nakaguchi, Ryotaro Tsuchiya, Lourdes Herrera Cadillo, Satoshi Takatani, Yuka Hirotsawa.

The Yangon Centre for Evidence Based Health Care: A JBI Affiliated Group

Host Institution - Military Institute of Nursing and Paramedical Science
Region - Yangon, Myanmar, Asia
Joined JBI - 2006

Director - Dr May Khin Thein

Entity core staff:
 Myat Thu, Law Ha Aung, Win Ni Tar, Maung Maung Than, Tin Aye Win, Aung Phone Zaw, Nan Kyi Pyar Si, Ni Ni Aung, Aye Su Su Win, Thida Win Myint.

Nanshan Evidence Based Nursing Centre: A JBI Affiliated Group

Host Institution - Huazhong University of Science and Technology Union Shenzhen Hospital
Region - Guangdong, PR China, Asia
Joined JBI - 2020

Director - Beirong MO (Molly)

Entity core staff:
 Vivienne Brady, Valerie Smith, Jessica Eustace-Cook, Louise Daly, Carmel Doyle, Louise Doyle, Mary Mooney, Frances O'Brien, Sharon O'Donnell.

Zhongshan Hospital Fudan University Centre for Evidence-based Practice: A JBI Centre of Excellence

Host Institution - Zhongshan Hospital
Region - Shanghai, PR China, Asia
Joined JBI - 2018

Director - Prof Zhang Yuxia

Entity core staff:
 Piaoyu Yang, Zhiyun Shen, Jun Zhong, Wenyan Zheng, Wenwen Zhao, Shining Cai, Guojing Shen, Ruili Zhang, Xiaohua Xu, Xiao Chen.

Henan Evidence-based Nursing Centre:

A JBI Affiliated Group

Host Institution - Henan Provincial People's Hospital

Region - Zhengzhou City, PR China, Asia

Joined JBI - 2023

Director - Prof Hongmei Zhang

Entity core staff:

Ying Lu, Xiaohui Miao, Cancan Chen, Xinping Shi, Panpan Cui, Hengyu Hu, Mengjuan Jing, Fan Yan, Ruifang Zhao, Wenhui Bai.

Taiwan Holistic Care Evidence

Implementation Center: A JBI Affiliated Group

Host Institution - Hung Hsing Hsueh home nursing care clinic

Region - Taichung, Taiwan, Asia

Joined JBI - 2015

Director - Adjunct Prof Shwu-Feng Tsay

Wen-Chun Liao, Shu-Fen Lo, Chwen-Tzeng Su, Hsin-Chung Tsai, Hsin-Yuan Fang, Tung-Wu Lu, Meei-Ling Gau, Yueh-Juen Hwu, Huan-Fang Lee.

The Centre for Nursing Education BCNU

Thailand: A JBI Affiliated Group

Host Institution - Boromrajonani College of Nursing Udon Thani

Region - Udon Thani, Thailand, Asia

Joined JBI - 2015

Director - Dr Adchara Khammathit

Entity core staff:

Chiraporn Worawong, Panthitricha Fuongtong, Pitsini Mongkhonsiri, Panphet Sakulkoo, Thitiwan Yothathia, Ruetairat

Chidmongkol, Kamonthip Tanglakmankhong, Yupaporn Tirapaiwong, Rattikorn Mueannadon, Srichai Posri.

Institute of Mental Health: A JBI Affiliated

Group

Host Institution - Institute of Mental Health

Region - Singapore, Asia

Joined JBI - 2009

Director - Dr Xie Huiting

Entity core staff:

Lei Liu, Jia Wang, Changqing Xu, Zhenyu Zhou, Qiufen Lu.

Taiwan Evidence Based Practice Centre:

A JBI Affiliated Group

Host Institution - National Yang-Ming Chiao Tung University

Region - Taipei, Taiwan, Asia

Joined JBI - 2005

Director - Prof Pei-Fan Mu

Entity core staff:

Tzu-Cheng Huang, Yu-Chi Chen, Lok-Hi Chow, Mei-Yin Lee, Ching Chuan Liang, Shu-Hua Yang, Jui-Yuan Su, Shu-He Huang, Shu-Fen Lu, Heng-Hsin

Tung, Cheng-Yu Chang.

Singapore National University Hospital

(NUH) Centre for Evidence-Based

Nursing: A JBI Affiliated Group

Host Institution - National University Hospital

Region - Singapore, Singapore, Asia

Joined JBI - 2008

Director - Dr Siti Zubaidah Mordiffi

Entity core staff:

Ping Xu, Lay Hoon Poo, Kit Cheng Ting, Nicholas Wee Siong Neo, Yee Mei Lee, Emily Ang, Poh Chi Tho.

The Thailand Centre for Evidence Based

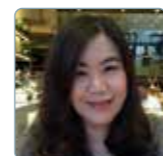

Health Care: A JBI Centre of Excellence

Host Institution - Chiang Mai University

Region - Chiang Mai, Thailand, Asia

Joined JBI - 2002

Director - A/Prof Patraporn

Entity core staff:

Wanicha Pungchompoo, Nuttanicha Sriboonyawattana, Wachai Lertwathanawilat, Wanpen Songkham,

Kulwadee Abhicharttbutra, Rojane Chintanawat, Jutamas Chotibang, Nonglak Chaloumsuk, Piyanut Xuto, Nuttamon Vuttanon.

70TH JBIC MEETING

The 70th JBI Collaboration (JBIC) Meeting took place on 13–15 November 2023, where 100 people from 30+ countries attended the first face-to-face meeting of the JBIC since 2019.

Discussion over three days included the launch of JBI's Strategic Plan 2024–2026, JBI/JBIC's role in working towards the United Nations Sustainable Development Goals, enhancing equity, diversity and inclusion across JBI and the JBIC, breaking down barriers across global collaborative evidence networks and the use and utility of the JBI Model of Evidence-Based Healthcare.

Announcements celebrated significant anniversaries:

- The Peking University Health Science Centre for Evidence-based Nursing celebrated its 10th anniversary as a JBI Collaboration Entity.
- The Nottingham Centre for Evidence-Based Healthcare celebrated 20 years with the JBI Collaboration.

Kochi, India

During the 70th JBIC Meeting, the winning bid to host the JBI Colloquium 2025 was announced: two JBI Collaboration Entities - Amrita Centre for Evidence-Based Oral Health, and Evidence Synthesis and Implementation for Indigenous Health - will partner to co-host the event in Kochi, India.

JBI ENDORSEMENT

JBI Endorsement is a recognition awarded to healthcare organisations that demonstrate commitment to evidence-based healthcare and an organisation-wide culture of innovation and excellence.

In 2023, six organisations were officially recognised as JBI Endorsed healthcare organisations:

- St Vincent's Hospital in Sydney (Australia)
- Zhongshan Hospital in Shanghai (China)
- Lausanne University Hospital, Lausanne (Switzerland)
- Hospital Universitário da Universidade de São Paulo, São Paulo (Brazil)
- Nanfang Hospital Southern Medical University, Guangdong Province (China)
- National University Hospital (Singapore)

Several more health organisations are working in collaboration with a JBI Collaboration Entity to achieve JBI Endorsement within the next two to three years.

	National University Hospital (Singapore)	
	St Vincent's Health Network (Sydney, Australia)	
	Zhongshan Hospital, Fudan University in (Shanghai, China)	
	Nanfang Hospital, Southern Medical University (Guangdong Province, China)	
	Lausanne University Hospital (Lausanne, Switzerland)	
	University Hospital of São Paulo (São Paulo, Brazil)	

GLOBAL PARTNERSHIPS

In 2023, JBI played an active role in fostering partnerships, collaborating with leading global organisations and leading a series of regional groups and organising committees globally.

JBI Adelaide GRADE Centre

The JBI Adelaide GRADE Centre is the first GRADE Centre in Australia and New Zealand. The Centre was established in partnership with the GRADE Working Group, an international alliance of clinicians and researchers who have developed a leading approach to rating research quality and guideline development. The Centre's mission is to train, promote, disseminate and implement GRADE approaches within and across the systematic review and guideline development community globally.

In 2023, Prof Zachary Munn and Dr Sue Brennan facilitated a webinar, 'GRADE for Guidelines', hosted by GIN ANZ and a total of 45 participants attended JBI Adelaide GRADE Centre workshops.

The JBI Adelaide GRADE Centre publishes the 'Australian GRADE Newsletter' in collaboration with the Melbourne GRADE Centre. Subscribers to the newsletter grew by 10% during 2023.

World EBHC Day

World Evidence-Based Healthcare Day, held on 20 October, is led by JBI in conjunction with six global leaders in evidence-based healthcare. This initiative raises awareness of the need for better evidence to inform healthcare policy, practice and decision-making to improve health outcomes globally. In 2023, official partners of JBI were Cochrane, Campbell Collaboration, Institute for Evidence-Based Healthcare, GIN, Centre for Evidence-based Health Care and NICE. In 2023, the principal sponsor of World Evidence-based Healthcare Day was Wolters Kluwer Health.

Guidelines International Network

JBI facilitates the ANZ Regional Group of GIN (Guidelines International Network) and its ANZ Guideline Network, which comprises researchers, academics and professionals with a common interest in improving the health of Australians and New Zealanders through the development and implementation of evidence-based guidance and guidelines. JBI manages the administration of the Network, publishes newsletters and develops webinars.

Global Commission on Evidence

The Global Commission on Evidence to Address Societal Challenges began two years ago as a grassroots effort to improve the use of research evidence, both in routine times and in future global.

JBI is a member of the Global Commission on Evidence Implementation Council.

Health Translation SA

Health Translation SA (HTSA) is a Research Translation Centre, accredited by the National Health and Medical Research Council (NHMRC) since 2015. Its core aim is to accelerate research findings into healthcare practice and policy and increase whole-of-system research translation capacity to improve the health of all South Australians. JBI contributes to the HTSA Implementation Science Network Executive Group, which develops a shared vision to scale and sustain the implementation science sector in South Australia.

Global Evidence Summit

The Global Evidence Summit, a quadrennial event, is a collaboration between four global leaders in evidence-based policy and practice, Cochrane, JBI, GIN and the Campbell Collaboration. It is a rare opportunity where global actors in evidence-based approaches will convene to share knowledge. The summit will serve as a crucial platform for collaboration to address global challenges in health, education, social justice and the environment. To be held in Prague, Czech Republic on 10-13 September 2024, the Global Evidence Summit represents a unique opportunity for professionals across various sectors to engage in discussions about evidence production, synthesis, translation, implementation and use, informing policy and practice.

JBI gLOCAL SOLUTION ROOM

Finding local solutions for implementing global evidence.

The JBI gLocal Solution Room is a series of free events on evidence implementation held for and by practising professionals across the globe.

Hosted by JBI Collaboration Entities in multiple countries and languages, events include webinars, seminars, symposia and workshops, which are designed to help decision-makers and clinicians find pragmatic solutions to the challenges of implementing global evidence in their unique local settings.

- From 5-11 June 2023, 30 JBI Collaboration Entities hosted local events in 2023, compared with 23 entities in 2022.
- More than 30,000 healthcare professionals, policymakers and academics attended events online or in person in 20+ countries across the globe.
- JBI co-hosted two local events:
 - at the Royal Adelaide Hospital with the Central Adelaide Local Health Network.
 - at Port Augusta Hospital with the Flinders and Upper North Local Health Network.

Every local event featured experts who formed a 'think tank' to use their collective expertise to respond directly to participants' questions about their unique contexts. Videos, reports and other resources from local events were made publicly available to facilitate knowledge exchange.

AMERICAS

**6 JBI gLocal Solution Rooms
3 Countries**

All presenters were rated greater than 4.8 on a scale of 1 to 5, with 5 being excellent. Attendees rated all objectives being met at a 4.7 or greater. Some feedback included: 'appreciated exposure to what evidence-based research is'; 'highly informative'; 'program was informative and conducive to learning'. All participants stated it met personal and professional objectives, highlighted the importance of academia and practice partnerships, enhanced knowledge of EBP and how to incorporate it into daily nursing.'

The Louisiana Centre for Promotion of Optimal Health Outcomes: A JBI Centre of Excellence

EUROPE

**10 JBI gLocal Solution Rooms
9 countries**

'We believe that this event contributed to strengthening the collaboration of the JBI Romanian Centre both with the JBI Wales Centre and with the organizations participating in the event. We also believe that the willingness to engage in research activities and implement evidence-based practices has increased. This event has become a tradition for the JBI Romanian Centre, being an event awaited by our hospital collaborators. We quote some opinions of the participants: 'It brought to the fore the importance of implementing evidence-based best practices and ways to improve leadership and organizational culture'; 'More clinicians need to participate in these types of events to help improve the quality and safety of health care!'

Romanian Centre for Nursing Research: A JBI Centre of Excellence

ASIA

**15 JBI gLocal Solution Rooms
6 countries**

'[Hosting a gLocal Solution Room] has provided opportunities to strengthen the relationships with professionals and groups, further research collaboration and more enquires for training.'

Peking University Health Science Centre for Evidence-based Nursing: A JBI Center of Excellence

AFRICA

**9 JBI gLocal Solution Rooms
6 countries**

'The webinar really educated many clinicians on the concept of evidence implementation and the use of evidence to inform clinical practice and to improve health outcomes.'

The Cameroon Centre for Evidence-Based Health Care: A JBI Centre of Excellence

AUSTRALASIA REGION

3 JBI gLocal Solution Rooms

'The event has helped to raise awareness of nursing research endeavours and how these can be used to improve patient outcomes.'

Queensland Centre for Evidence-Based Nursing and Midwifery: A JBI Centre of Excellence

WORLD EBHC DAY

World Evidence-Based Healthcare (EBHC) Day is a JBI initiative that was launched in 2020 to raise awareness of the need for better evidence to inform healthcare policy, practice and decision-making to improve health outcomes globally.

World EBHC Day was held on 20 October 2023, led by JBI in partnership with Cochrane, Campbell Collaboration, GIN, the Institute for Evidence-Based Healthcare, the Centre for Evidence-based Health Care and NICE. The principal sponsor of World EBHC Day in 2023 was Wolters Kluwer Health.

In 2023, 1,106 organisations took part in World EBHC Day, an increase from 919 in 2022.

Across 122 countries and in 42 languages, 28.8 million people were reached across social media.

Highlights

- For the first time, campaign partners were introduced. Campaign partners collaborated with the organising partners of World EBHC Day to contribute to developing and strengthening the campaign, 'Evidence and Global Health Equity', with unique expertise, knowledge and resources.
- JBI was proud to host the official World EBHC Day event, a webinar that served as an introduction to evidence and global health equity. Chair of the World EBHC Day Steering Committee, Bianca Pilla, opened the webinar, which was moderated by Nasreen Jessani, also a Steering Committee Member.

Panellists: Jordi Pardo Pardo, Lawrence Mbuagbaw, Lynn Hendricks, Nasreen-Jessani, Ritin Fernandez and Soumyadeep Bhaumik - shared their stories and their thoughts on inequities across evidence ecosystems.

Top 5 blogs

Evidence and Global Health Equity

The aim of the 2023 campaign, 'Evidence and Global Health Equity', was to examine how the global evidence community can foster and embed equity within and across the evidence ecosystem to advance global health equity.

Organisations and individuals were invited to submit a blog, vlog or host an event to share their experiences, ideas and recommendations for fostering equity-centred, evidence-informed decision-making; and/or strengthening local, national and global evidence ecosystems to advance global health equity.

- 55 blogs from 21 countries were published in 2023 compared with 41 blogs from 20 countries in 2022
- 20 vlogs were published in four languages
- More than 50 events globally were held to mark World EBHC Day
- Almost 100 organisations and individuals actively participated in the 2023 campaign as Evidence Ambassadors

JBI iGNITE

JBI iGNITE is a two-day methodology symposium that was held for the first time on 16-17 November 2023. The symposium was attended by 200+ people from around the globe.

JBI iGNITE is designed to challenge and stimulate thinking about the future of EBHC methodology and methods, as the global evidence ecosystem continues to evolve at a rapid pace and the science of evidence-based healthcare becomes increasingly sophisticated.

The continued development of technologies such as AI and big data analytics have the potential to revolutionise EBHC methodology, together with the increasing emphasis on interdisciplinary and collaborative research approaches. JBI iGNITE is an opportunity to anticipate what the future might have in store for us and adapt to improve global health outcomes through the synthesis, transfer and implementation of the best available evidence.

Held at the National Wine Centre of Australia, the symposium featured presentations by international leaders and innovators in evidence synthesis and implementation.

- Dr David Moher, senior scientist and innovator.
- Prof Ruth Stewart, a pioneer in the field of evidence-informed development and evidence networks.
- Dr Noah Ivers, one of the most influential voices in healthcare research, implementation and use of data for EBHC.
- Prof Maureen Dobbins, leading researcher in knowledge translation.
- Prof Peter Bragg, who is at the forefront of cutting-edge review science.
- Prof Tari Turner, who spearheads research to revolutionise the way evidence is used to inform practice and policy.

In addition to plenary presentations with fireside chats, the program included rapid fire methodology sessions with internationally recognised methodologists.

Rapid fire methodology sessions included:

- Dr Jennifer Stone's session, 'Innovations in Systematic Reviews of Aetiology and Risk'.
- Alexa McArthur's session, 'Revised JBI Methodology for Textual Evidence Synthesis'.
- Prof Catrin Evan's session, 'Methods and Approaches for Attending to Equality, Diversity and Inclusion Within the Qualitative Systematic Review Process'.
- Dr Lucylynn Lizarondo's session, 'Keeping PACE with Evidence Implementation'.

The JBI iGNITE program included a poster walk. The winning poster by popular vote was announced as Ching-Chang Liang's poster on person-centred falls prevention and management in neurological post-operative patients.

JBI iGNITE delegates networked at a welcome reception during which University of Adelaide representative, Prof Tracy Merlin, Head of School of Public Health, welcomed delegates.

EDUCATION

JBI's education and training programs are practical, international in scope and reflect our expertise as a leading international research and development institute in the fields of evidence synthesis, transfer and implementation. JBI's short courses are offered in all regions of the world through the JBI Collaboration.

JBI SHORT COURSES

Comprehensive Systematic Review Training

The Comprehensive Systematic Review Training Program (CS RTP) trains clinicians, policymakers and decision-makers in healthcare how to critically appraise research and report high-quality systematic reviews to provide the strongest possible evidence to inform decision-making or clinical guideline development in healthcare.

In 2023, there was a 6.5% increase in registrations for the CS RTP compared with 2022.

Evidence Implementation Training Program

The six-month Evidence Implementation Training Program (EITP) fulfils a critical role in assisting health professionals from around the world to become effective clinical leaders in their communities by equipping them with the knowledge and skills to lead change and implement evidence into practice.

The number of JBIC Entities offering the EITP grew to 13 in 2023, an increase from 10 in 2022.

JBI SHORT COURSES (Cont.)

Bespoke training

With funding from Australia Awards, JBI delivered a tailored version of the JBI Evidence-based Clinical Leadership Workshop in Port Moresby to 43 midwives who had travelled from various locations across Papua New Guinea.

The two-day workshop was specially developed to address the specific knowledge and cultural needs of the Australia Awards participants in Papua New Guinea to further develop their leadership skills within local communities and health services.

The workshop aimed to build the capacity of participants to manage, actively lead and facilitate change in their workplace. It also aimed to build workplace culture focused on applying current best practice in midwifery.

Feedback submitted anonymously by the workshop participants indicates the success of the workshop: *'Thank you everyone for your great participation in this tremendous two-day workshop. Very enriching especially regarding leaderships and clinical audits. Will continue to implement evidence-based practice and try to make a change and close the gap from evidence to practice.'*

Scoping Review Workshop

The one-day Scoping Review Workshop equips participants with the knowledge and tools to successfully plan and undertake a scoping review.

In 2023, the number of registrations increased by 164% compared with an increase of 58% in 2022.

Scoping review online course

The online scoping review course, 'Undertaking a scoping review', is presented by JBI and available through the University of Adelaide. In 2023 there were 11 new registrations for the course.

69 educational reels were uploaded in 2023, with 18,874 views. This compares with 48 reels in 2022, with 17,781 views.

POSTGRADUATE RESEARCH DEGREES

JBI offers the Master of Clinical Science (MSc), Master of Philosophy (MPhil) and Doctor of Philosophy (PhD) programs. Eleven new students enrolled in 2023, while four students completed their programs.

Completions

Shannon Barnes: Doing the unthinkable together: Health professional grief and partnership with families during paediatric critical illness

Grace Wambui Maina: The effectiveness of short-term ventilation tube insertion versus surveillance in the management of chronic otitis media with effusion in children with non-syndromic cleft lip and palate

Timothy James Lee: Effectiveness of reduced versus standard dose radiation therapy on survival and radiation associated toxicity in human papillomavirus (HPV) associated oropharyngeal squamous cell carcinoma (OPSCC)

Hooman Baghaie: Prophylactic tranexamic acid use in orthognathic surgery: A systematic review

Research Schools and Workshop

Two Research Schools and one Postgraduate Research Degrees Workshop were held for all current JBI postgraduate research degree students.

The objective of JBI's Research Schools is to create a forum for health professionals and researchers to pursue their degree within a multidisciplinary context and to achieve a depth of learning and experience that is more comprehensive than a singular focus on their own topic area and methods.

A number of workshops and presentations are included in Research School programs. In 2023, presentations included:

- Prof Helen Marshall AM, The University of Adelaide: A road less travelled... from Ahoghill to the Australia of the Year Awards and everything in-between
- Prof Nicola Spurrier, SA Health: A journey of life-long learning
- Dr Patrick Russell, Royal Adelaide Hospital: Clinical research: What things could look like
- A/Prof. Yuri T. Jadotte, Stony Brook University and Rutgers School of Nursing: Minimizing random and systematic error: The importance of economic evaluation evidence synthesis to improve equity in health policy decision-making on efficiency

In November 2023, a Postgraduate Research Degrees workshop was held with international speakers:

- Prof Tari Turner, Australian Living Evidence Consortium: Living on the edge: Exploring possible futures of evidence synthesis
- Prof Ruth Stewart, Global Impact at the Future Evidence Foundation and Africa Evidence Network: Transforming evidence for policy: What role can we play?
- Prof David Moher, University of Ottawa: Research transparency, researcher integrity and evaluation
- Prof Maureen Dobbins, McMaster University: Three decades of conducting public health reviews: Reflections, lessons learned and opportunities and challenges in a post-COVID

ORAL PRESENTATIONS BY JBI STAFF

Name	Title	Event
Aromataris E	A lens on scoping reviews	Invited keynote: The Taiwan National Evidence-Based Healthcare Joint Annual Conference, 1 July 2023.
Jordan Z	Evidence in focus: The power and potential of prioritisation to address global issues in evidence synthesis	Invited speaker, JBIC European Symposium, Tabriz, Iran, 22 June 2023. (Online)
Jordan Z, Pilla B	From agenda to action: Collaborative evidence networks and the United Nations Sustainable Development Goals	Short Oral, Cochrane Colloquium, London, September 2023.
Jordan Z	From insight to impact: Navigating global and local responsibilities in the evidence ecosystem	Invited keynote, NIKEZ Conference, Prague, October 2023.
Jordan Z	Evidence synthesis and global health agendas	70th JBIC meeting, Adelaide, SA, November 2023.
Jordan Z	Concept to action: The JBI Model	70th JBIC meeting, Adelaide, SA, November 2023.
Jordan Z, McArthur A	The road less travelled: Textual evidence systematic reviews in action	Rapid fire oral presentation: JBI iGNITE, Adelaide, SA, November 2023.
Lizarondo L	What and how of a journal club	Invited presentation for De La Salle Medical and Health Sciences Institute, Philippines, January 2023. (Online)
Lizarondo L	JBI Evidence Implementation	Invited presentation for Rehabilitation Sciences Convention 2023, University of Santo Tomas, Manila, Philippines. (Online)
Lizarondo L	Building implementation capacity the JBI way	Annual Conference of National Evidence-based Healthcare Taiwan, 1 July 2023.
Lockwood C	That's it editor: I submitted my review and it was not accepted, what did I do wrong?	Invited Keynote: Postgraduate Program in Nursing Management (PPGEn), School of Nursing, University São Paulo, 6 July 2023.
Lockwood C	How to publish an implementation report in the JBI journal	Invited keynote, Xiangya Center for Evidence-based Nursing Practice & Healthcare Innovation, 10 June 2023. (Online)
Lockwood C, Jordan Z, Porritt K, Mignone A	Intensive education and facilitation: Impact on practitioner understanding and use of evidence	Poster presentation, Cochrane Colloquium, London, 2023.
Lockwood C	Implementation science: A primer	Opening Plenary, Institute for Health Services and Health Systems Research, Center for Health Services Research Brandenburg. October 2023. (Online)
Lockwood C	Making implementation work: Models, methods and mechanisms of action for routine uptake of evidence-based healthcare	Keynote, Nursing & Midwifery Grand Round, Northern Adelaide Local Health Network, September 2023.
Lockwood C	Implementation science and the power of nursing data ownership in knowledge translation	Opening keynote 14th edition of the Annual Conference of the Order of Nurses, Midwives and Medical Assistants from Romania Bucharest Branch, 17 May 2023.
Lockwood C	Implementation science and the power of nursing data ownership in knowledge translation	Opening keynote, College of Nursing, National Yang Ming Chiao Tung University, 20 April 2023. (Online)
McArthur A	JBI's approach to drive evidence implementation in improving delirium practices	Invited speaker, Health Translation SA Implementation Science Inaugural Meeting, Adelaide, SA, 8 June 2023.
McArthur A	JBI's pragmatic approach to evidence implementation	Invited speaker, Adelaide University Rural Clinical School and the Department of General Practice, 26 September 2023.

McArthur A, Overall B, Pearson V	JBI gLocal Solution Room - Pt Augusta. Session 1: Leadership and culture; Session 2: Accessing and using evidence	Invited workshop, Pt Augusta Hospital, 9 August 2023.
Overall B, Porritt K	Connecting evidence to practice: Introduction to transfer science	Invited speakers, Nursing Masterclass Series for CALHN, Adelaide, SA, 2 March 2023. (Online)
Overall B, Pearson V	Applying strong evidence	Invited speakers, Health Translation SA - Research Translation Essentials Course, SAHMRI Auditorium, Adelaide, SA, 26 September 2023.
Pearson V	Scientific communication in English	Invited speaker, Universidade Federal de Juiz de Fora, Brazil. Global July Program 2023, 8 August 2023. (Online)
Pilla B	The JBI Collaboration: Promoting and supporting EBHC globally	Invited speaker, JBIC European Symposium, Tabriz, Iran, 22 June 2023. (Online)
Pilla B, McCulloch H, Jordan Z	Driving the evidence-based healthcare agenda forward through global partnerships: A reflexive thematic analysis	Short Oral, Cochrane Colloquium, London, September 2023.
Pilla B, Jordan Z	The role of collaborative evidence networks in promoting & supporting EBHC globally	Short Oral, Cochrane Colloquium, London, September 2023.
Pilla, B	World Evidence-Based Healthcare Day: An Overview	Invited speaker, 2º Painel Internacional de Prática Baseada em Evidências, UNIMED, Brasil, 17 October 2023. (Online)
Pilla, B	Global networks working together	70th JBIC Meeting, Adelaide, SA, 13 November 2023.
Porritt K	Challenges and solutions of getting evidence to practice	Invited speaker: JBI gLocal 'From Research Questions to Appraised Intervention Studies: A Toolkit for Empowering Your Research Skills', Philippines, 10 June 2023. (Online)
Porritt K	Accessing and identifying trustworthy evidence in practice	Invited speaker, JBI gLocal, Fudan, China, 9 June 2023. (Online)
Porritt K	Connecting evidence with clinical practice	JBI iGNITE, Adelaide, SA, 17 November 2023.
Porritt K, Overall B	Promoting and supporting evidence-based healthcare: An introduction to JBI	Invited speakers, Nursing Masterclass Series for CALHN, Adelaide, SA, 2 February 2023. (Online)
Porritt K Whitehorn A, Bellman S, Pearson V, Stephenson M	Partnership for practice improvement: JBI's collaborative approach to developing evidence-based point-of-care resources	Short Oral, Cochrane Colloquium, London, 2023.
Stern C, Lizarondo L	Mixed methods systematic reviews	JBI HDR Research School, March 2023
Stern C, Lizarondo L, Loveday H	Data transformation in mixed methods systematic reviews: A starting point	JBI iGNITE, 17th November 2023
Stern C, Stone J	Navigating the seas of evidence synthesis: Charting your course in healthcare research	Postgraduate Masterclass Series, 16th October 2023, University of Adelaide
Stern C	Evidence synthesis methodologies used for questions relating to barriers and/or enablers in health care: A methodological review	School of Public Health Research Symposium, December 6th 2023
Whitehorn A, Lizarondo L	JBI evidence-based practice	Invited Presentation, South Australian Association Internal Medicine (SAAIM), 23rd February 2023, South Australian Museum.
Whitehorn A, McArthur A	JBI evidence-based practice and implementation	Invited speakers, Australian College of Neonatal Nurses (ACNN), 7th September 2023. Adelaide, South Australia.
