Question: What have previous review publications revealed about the state of digital health competency and capacity of nurses around the world?

PCC

Population: This review will consider studies that include all classifications of nurses in any healthcare position within a healthcare system, classifications may therefore include student nurses, registered nurses, nurse practitioners, advanced practice nurses, licensed practical nurses, registered practical nurses, community nurses, and midwives.

Concept: Digital health competency and capacity, including Artificial Intelligence (AI)

Context:
Focus on world-wide publication, inclusive of four languages, as part of an effort to highlight potential inequities or priority needs potentially influenced by geographic location.
