

JBI Clinical Leader Workshop

Lead with purpose. Inspire with evidence.

Join our one-day Clinical Leadership Workshop and build the confidence and capability to lead meaningful change in healthcare. Grounded in the best available evidence, this program supports clinical leaders across all health professions to strengthen their leadership impact.

Why attend?

- Understand the foundations of effective clinical leadership in modern healthcare
- Identify your personal leadership strengths and areas for growth
- Learn evidence-based strategies to lead change with clarity and confidence
- Build skills in communication, collaboration and conflict resolution to support positive workplace culture
- Strengthen your ability to lead people, build productive teams and expand your influence as a clinical leader

What's included

- One full day of interactive, expert-led leadership training
- Evidence-based strategies for leading change, strengthening culture and building collaborative healthcare teams
- Coaching-informed processes and real-world examples to strengthen leadership capability and address workplace challenges
- Access to all workshop materials
- Six months complimentary access to JBI PACES
- Certificate of completion (full attendance required)
