

Rapid Evidence Synthesis: JBI Evidence Summary Workshop

Learn to turn research into impact

Join JBI's three-day online workshop and gain the skills to create high-quality JBI Evidence Summaries that support evidence-based decision-making and improve clinical practice.

Why attend?

- Discover how evidence transfer drives better healthcare
- Learn to use clinical decision-support resources for continuous quality improvement
- Get hands-on experience creating JBI Evidence Summaries published in JBI Best Practice
- Work with JBI experts through interactive sessions and practical guidance

What's included

- Three days of online training
- Led by world-class JBI trainers: Dr Kylie Porritt and Dr Ashley Whitehorn
- Access to all training materials
- Certificate of completion (full attendance required)
